FEDERAL PLANS TO MEET COAL STRIKE TAKEN UP, BUT KEPT SECRET

Official Washington Does Not Intend to "Play Into Hands of Bolsheviki"; "Strong Hand" on Radicals, but No Antagonism to Conservative Workers.

"INTIMATION OF FORCE WON'T ALLAY CRISIS"

Threats Will Not Prevent Nor End Strike, Says Lewis; Government Should Demand Operators Give Demands Just Consideration, He Declares.

WASHINGTON, Oct. 27.—Measures to meet the situation, which would result from the threatened strike of bituminous coal miners next Saturday were considered today by administration officials.

No reply from officers of the United Mine Workers of America to the demand of President Wilson that the strike be called off is expected until after the miners' executive committee meets at Indianapolis Wednesday, but meantime officials are already cognizant of the statements of union leaders that it would be physically impossible to withdraw the strike order by Nov. 1.

The administration's program for dealing with the strike naturally will not be disclosed until the strike has developed.

Plans Not Announced.

"To announce now what the Government will do in the event of a strike," said one official, "would be to play into the hands of the Bolsheviki element. If you are going to start a great offensive, you do not tell the other fellow what you are going to do."

While it is the purpose to keep a "strong hand" over the radicals, officials made it plain that caution should be exercised not to antagonize the more conservative element. In this connection they say that many of the miners' demands might be just.

It is the means they use to obtain their demands to which we object," said one high official.

Contract and War's End.

So far as it concerned the controversy between the miners and operators, the outstanding declaration by President Wilson was that the wartime agreement, which the miners contend no longer exists, still is in full force and effect and will stand "during the continuance of the war, but not beyond April 1, 1920." Looking at it in "a practical way," Lewis and the full senate committee have steadfastly maintained that the war ended with the armistice, and that the miners, for a full year, have worked at the old wage as their voluntary contribution to the job of helping the country get back to normal.

There is a suggestion that the Cabinet may decide to send Secretary of Labor Wilson to Indianapolis to confer with the United Workers of America at the meeting there on Wednesday. Labor leaders here saw in view of the efforts made by the Secretary to settle the strike, and in the light of the President's emphatic announcement that the mines had to remain open, a personal word spoken to members of the board might pave the way for peace.

How Strike Was Called.

The strike had been issued and signed by executive officers of the United Mine Workers "in conformity with the authority vested by the international convention" at Cleveland on Sept. 23, and, while President Lewis declined while here to discuss the present of the situation, it is held that the men who had the power to order the strike, likewise have the power to call it off.

Some labor officials said the Executive Board could act for the whole organization, and that Lewis and the other executive officers could hold up or withdraw the strike order, if they saw fit to do so.

Effect on Railroads.

Director-General Hines had not disclosed, except to the Cabinet, how long the transportation system of the country could operate if the supply of fuel should be shut off. Hines and his regional directors have conferred on the situation.

Discussed in Senate.

The coal strike was discussed briefly today in the Senate. Senator Thomas, Democrat, Colorado, asked unanimous consent for immediate adoption of his resolution, proposing declaration of full support of Congress to the administration in its effort to deal with the situation.

Farewell Letters Murdered Aviators Left for Mothers

COPYES of farewell letters written to their mothers by Lieuts. Connolly and Waterhouse, American aviators killed by Mexicans when they lost their way below the border, were given out here by Joe Richards, who first reported the discovery of the bodies. The letter written by Connolly read in part:

Dearest Mother: My time to die is here. God knows it will be welcome enough after our suffering so far of hunger and thirst. Try to forget my fate. What I have is yours. Use it for your comfort and happiness. I tried to live a good life and I do not fear death. Please do not wear mourning for me. Love to you, Dad, Norma, Hazel, and Ethel. God bless you all.

CECIL.

The following is Richards' copy of Lieut. Waterhouse's note to his mother:

Dearest Mother: We have been here now 10 days. No sign of any help and our water nearly gone. So I thought I would write you a short letter while I had the strength. I don't want you to grieve for me. I want you to be every thing, which is not much. All my love to you and Sis and Dad. Lovingly,

SON.

U. R. TO BEGIN COLLECTING 8-CENT CASH FARE SATURDAY

Announcement Placed in Cars Today Calls Attention to Sale of Tokens at Lower Rates.

Cards in the cars of the United Railways today notify the public that the 8-cent cash fare, awarded by the Public Service Commission, will be placed in effect at 3 a. m., Nov. 1. Passengers are reminded that they can avail themselves of the 7-cent fare by purchasing metal tokens in lots of 50 for \$3.50. Two metal tokens will be sold for 15 cents, but 12 cents in cash, deposited in the fare box, the card says, will not be accepted for two cash fares. The child's cash fare shall be 4 cents, or 3½ cents by purchasing two paper tickets for 7 cents.

The metal tokens for adults are of white metal and bronze and of two sizes. The large bronze token was to have been used for the child's fare, but this arrangement has been changed, and the bronze token will be sold in lots of two for 15 cents, as the 7½-cent fare, to those who do not purchase the small white metal token in lots of 50.

RAIN AND COLDER FOR TONIGHT; CLEAR AND COLDER TOMORROW

THE TEMPERATURES.

At 8 a. m.	At 10 a. m.	At 12 m.	At 2 p. m.	At 4 p. m.	At 6 p. m.
45	48	49	48	45	42
44	47	48	47	44	41
43	46	47	46	43	40

Highest yesterday, 56 at 1 a. m.; lowest, 45 at 8 a. m.

Official forecast for St. Louis, Mo., and vicinity: Rain and colder tonight, clearing and colder tomorrow.

Missouri—Rain tonight, possibly followed by clearing tomorrow morning; colder tonight and in east and south portions tomorrow.

Illinois—Rain probably tonight and tomorrow; colder tomorrow.

SEARCH BEGUN FOR MEXICAN SLAYERS OF ARMY AVIATORS

Officially Announced Murderers of Lieuts. Connolly and Waterhouse, Lost Below Border, Are Known.

BODIES BROUGHT BACK TO HOMES

Stories of 19 Days of Suffering Described in Messages Scratched on Wings of Their Planes.

By the Associated Press.

SAN DIEGO, Cal., Oct. 27.—Plans were put in operation today in Lower California, Mexico, as well as at Washington, looking to the arrest of the two Mexican fishermen accused of murdering Lieuts. Cecil H. Connolly and Frederick Waterhouse, American aviators who flew into Mexico Aug. 21 and subsequently lost their lives.

The identity of the accused men is known both to Mexican and American officials. It was announced officially last night when the aviators' bodies were brought here on the destroyer Aaron Ward, after resting some days in shallow graves near Bahia Los Angeles, Lower California, and because of the friendly relations existing between the American Government and Gov. Esteban Cantu of Lower California, comparatively little difficulty is anticipated in apprehending them.

The aviators' record of their sufferings were scratched on the wings and fuselage of their plane, but were not given out in full by army officers because their nature was such that requests were made that they be not published in entirety out of consideration for the dead officers' families. Brief descriptions of how they lost their way in a rainstorm and of some of their efforts to catch fish for food and to reach safety, however, were given out. From Joe Allen Richards, a mining engineer who discovered the bodies of the aviators, the body of their last messages to their mothers were obtained.

At one time the aviators were within 12 miles of an American operated mine, where they could have found food and safety.

Nineteen Days With Little Food.

Maj. R. S. Bratton, head of the military party sent here to recover the bodies, said that the two aviators had gone 19 days without food, or at least without much, to sustain them. The fate that befell them until the very last. Maj. Theodore McAuley, in one of his flights to find them, flew within 60 miles of the spot where they stood guarding their plane.

One of their messages, scratched on the airplane fuselage with a knife nail, gave details of how the aviators lost their way. The message said they remained in the air four hours and five minutes; that they ran into a rainstorm and lost their sense of direction. When they sighted the Gulf of California they thought they were flying up the coast instead of southward along the east coast of the Gulf of California.

Another message, traced on the wings and fuselage, told how the aviators attempted for two days to catch fish to appease their hunger. They then started walking northward to the coast.

PREPARATIONS TO ENFORCE DRY LAW BEING MADE HERE

Revenue Collector Will Carry Out Provisions of Bill if It Becomes Effective Tomorrow as Expected.

CONTENTS LIMITED TO .5 PER CENT ALCOHOL

Notices to That Effect Will Be Sent to All Dealers—Breweries Announce They Will Obey Terms.

By the Associated Press.

SAN DIEGO, Cal., Oct. 27.—Plans were put in operation today in Lower California, Mexico, as well as at Washington, looking to the arrest of the two Mexican fishermen accused of murdering Lieuts. Cecil H. Connolly and Frederick Waterhouse, American aviators who flew into Mexico Aug. 21 and subsequently lost their lives.

The following conditions are believed to have contributed to the consistent violation: Under the act effective July 1, enforcement was delegated to the Department of Justice, with the assistance of the police. The St. Louis office of the Department of Justice has only five operatives. About 90 per cent of the charges of violation of the prohibition act have been filed by the Department of Justice operatives. It is known that on two separate occasions, when the Department of Justice planned raids in St. Louis, the sale of liquor in St. Louis ceased.

205 Deputies Ready Here.

Under the new act, enforcement becomes the duty of the Internal Revenue Collector. In St. Louis Collector Moore has 130 deputies and, in addition, has at his disposal 75 deputies in the office of the Internal Revenue Agent, which is the investigating division of the Internal Revenue office.

The notices which Moore is preparing state that sales will be watched closely and prosecutions will be vigorous.

Officers of St. Louis breweries which have been marketing 2.75 per cent beer announced today that if the new enforcement act becomes effective their breweries would begin immediate compliance and would manufacture only cereal beverages containing no more than one-half of one per cent alcohol.

John P. Fitzgibbon, chief counsel of the Independent Brewery Co., American and National breweries, made this announcement for his company and C. Norman Jones, secretary of the St. Louis Brewing Association, which operates five breweries, made it for his concern.

Only Temporary Ban Expected.

The act if allowed to become effective "until after the termination of demobilization, the date of which shall be determined by the President of the United States." Under this clause, there is belief that when the Senate acts on the peace treaty, the ban will be lifted on the sale of all liquors and will continue lifted until Jan. 16, when the nation becomes dry of continental amendment.

Residents are permitted to hold liquor acquired before the act went into effect in their homes for their own consumption and service to bona-fide guests, but "the burden of the proof shall be upon the possessor in any action concerning the same to prove that such liquor was lawfully acquired, possessed and used." The provisions against transporting liquor are so rigid that it is believed that householders will have difficulty in transferring their stock if they move from one residence to another, particularly if they move from one city to another.

Landlords Are Liable.

Buildings in which sale of liquor is discovered are declared to be "common nuisances" and may be closed by injunction. The man maintaining such a nuisance is punishable by a fine of from \$100 to \$1000 or by imprisonment for from 30 days to one year or both. If the owner of the building has knowledge of the uses to which it has been put, his property may be sold to pay all fines and costs against the occupant.

The Commissioner of Internal Revenue is empowered to employ as many agents as necessary and a fund of \$3,500,000 is placed at his disposal for enforcement.

Treaty in Effect Next Month.

By the Associated Press.

PARIS, Oct. 27.—The military measures decided upon between the Supreme Council and Marshal Foch to carry out provisions of the peace treaty coincident with the coming into force of that instrument will be carried out between Nov. 5 and Nov. 10, according to the Liberte.

THEORY OF GRAVITY IS WRONG, ASSERTS ITALIAN SCIENTIST

Declares Experiments Upset Hitherto Accepted Laws of Physics.

By the Associated Press.

ROME, Oct. 27.—Newton's theory of gravitation has been attacked by Prof. Malorana, who, speaking before meeting of prominent scientists here yesterday, declared the results of experiments he had performed upset the hitherto accepted laws of physics governing the motions of celestial bodies.

Newton's theory, while hitherto considered absolute, is only an approximate hypothesis, according to Prof. Malorana, who supports this assertion by showing that a ball of lead floating in mercury becomes slightly lighter.

From this the professor deduces four things: First, that bodies have both a true and an apparent mass, the true mass being double the apparent mass; second, that the stars attract other bodies with forces entirely different from those thus far admitted to exist; third, that the solar heat of stars is generated by the force of gravitation emanating from interior strata; from this, he argues, the solar system has had an immensely longer life than has been believed by scientists up until the present; fourth, that the evolution of the world has been closely linked to the phenomenon which he has discovered.

Prof. Malorana explains by this means the fact that all stars are more or less luminous, and believes that his theory is pointing about a revolution in the physical science.

PRESIDENT'S PROGRESS IS SATISFACTORY, SAY DOCTORS

Patient Insists on Seeing Tumulty, and Prohibition Bill Is Placed Before Him.

By the Associated Press.

WASHINGTON, Oct. 27.—"The President's progress continues, as during the past few days, satisfactory," said a bulletin today by his physicians.

The President was expected to transact some official business today. He had a long talk with Dr. Grayson concerning executive matters and insisted that he be permitted to see Secretary Tumulty. Later it was said the prohibition bill had been sent to the President along with the opinion of Attorney-General Palmer as to its constitutionality.

President Wilson obtained considerable rest yesterday.

Secretary Tumulty spent Sunday virtually the entire day with her husband, reading to him light verse and fiction.

The President continues to improve slowly," said the midday bulletin issued yesterday. Dr. Grayson at night authorized the following statement: "The President had a very good day."

MANY HURT IN STRIKE RIOT ON DOCKS IN BROOKLYN

Men Going to Work Clash With 2000 Longshoremen and Shots Are Fired, Stones Thrown.

By the Associated Press.

NEW YORK, Sept. 27.—Scores of persons were injured in a fight between 2000 striking longshoremen and several hundred men who were on their way to work at the Bush Terminal Docks in Brooklyn this morning. More than 50 revolver shots were fired, and sticks, stones, bricks and clubs were used by the combatants. Police reserves were called and 10 arrests were made.

The disturbance occurred at Fort-third street and Second avenue, Brooklyn, and was apparently both streets for two blocks before it was quelled by the police, who used their clubs freely. One policeman was struck on the head with a brick and seriously injured.

The 10 men arrested were badly beaten and their wounds were dressed by police surgeons. Two of them were taken to the hospital.

Longshoremen, said to be members of 24 locals of the International Longshoremen's Union, voted last night in favor of a general strike in the port of New York, to become effective immediately. They declared that 22,000 dock workers employed on the piers in Manhattan, Brooklyn, Hoboken, Jersey City and Staten Island would obey the new strike order. They said that heretofore they had been on a "vacation."

FEDERAL BUILDING TARDY IN TURNING CLOCKS BACK

The Federal Building, headquarters of the United States Government in St. Louis, was one of the last places in the city to comply with the requirement of the Federal daylight saving law, which was set back one hour yesterday morning.

Employees in Government offices who reached the building at 9 o'clock, by their time, today found that the clocks indicated the hour of 10, making them appear to be an hour late. A fire near Grand avenue and Olive street delayed some of the employees who use the Olive line, and these were dismayed to find themselves an hour and 20 minutes behind.

The Government pays a downtown jewelry firm \$160 a year to keep the clocks in the building in order. The clock man came around soon after the Government employees arrived, taking a long ladder, went around the offices, turning the hands back.

JOHNSON AMENDMENT DEFEATED BY SENATE, 38 FOR, 40 AGAINST

How the Senate Voted on Johnson's Amendment

WASHINGTON, Oct. 27.

THE rollcall in the Senate today on Senator Johnson's amendment to the peace treaty was as follows:

For adoption: Republicans—Ball, Borah, Brandegee, Capper, Cummins, Curtis, Dillingham, Fall, France, Frelinghuysen, Gronna, Harding, Johnson of California, Jones of Washington, Kenyon, Knox, La Follette, Lenroot, Lodge, McCormick, McLean, Moses, New, Newberry, Norris, Page, Penrose, Phipps, Poindexter, Sherman, Smoot, Spencer, Sutherland, Townsend, Wadsworth and Warren—38.

Democrats—Gore and Shields—2.

Against adoption: Republicans—Critt, Edge, Hale, Kelllogg, Keyes, McCumber, McNary, Nelson and Sterling—9.

Democrats—Baughman, Chubb, Culberson, Dial, Fletcher, Gay, Gerry, Harris, Harrison, Henderson, Hitchcock, Jones of New Mexico, King, Kirby, McKellar, Myers, Nugent, Overman, Pomerene, Ransdell, Robinson, Shepard, Simmons, Smith of Arizona, Smith of Maryland, Swanson, Thomas, Trammell, Underwood, Walsh of Montana and Williams—31.

Total, 40.

Of the 18 Senators not voting, Senator Walsh, Democrat, Massachusetts, voted for the Johnson amendment, but later withdrew his vote in the absence of his pair, Senator Stanley, Democrat, of Kentucky, who opposed the amendment.

Others absent or paired and not voting were: For adoption—Senators Calder, Republican, New York; Reed, Democrat, Missouri; Elkins, Republican, West Virginia; Fernald, Republican, Maine; and Watson, Republican, Indiana. Against—Ashurst, Democrat, Arizona; Beckham, Democrat, Kentucky; Johnson, Democrat, South Dakota; Kendrick, Democrat, Wyoming; Martin, Democrat, Virginia; Owen, Democrat, Oklahoma; Phelan, Democrat, California; Pittman, Democrat, Nevada; Sullih, Democrat, Georgia; Smith, Democrat, South Carolina; and Wolcott, Democrat, Delaware.

MERAMEC RIVER MAY FLOOD WITHIN 24 HOURS

Weather Bureau Issues Warning—4.38 Inch Rainfall Since Saturday.

The Weather Bureau today issued a warning that it expected the Meramec River at Valley Park to reach a stage of 25 feet within the next 24 hours. This would be a stage equal to that of April, 1918, when many riverside clubhouses were washed away, but not so great a flood as that of August, 1918, when the water spread over the lowlands, causing great property damage in the vicinity of Valley Park.

The warning followed a steady rain in which there was a fall of 4.38 inches between 5 p. m. Saturday and 7 a. m. today. It continued to rain during the forenoon, but not so heavily as in the preceding 12 hours.

From the western part of St. Louis County it was reported that creeks had overflowed their banks and flooded roads and that telephone service had been impaired because of weather conditions.

Though no actual damage was reported from the territory immediately surrounding St. Louis it was reported that creeks on the east side of the river were rising rapidly and that it was feared that with continued rain there would be interference with the traffic on interurban lines running from East St. Louis to Collinsville, Edwardsville and other neighboring towns. Water stood in the streets of Granite City, Madison and Venice.

The rain was general in Missouri, but was heaviest in the central-eastern portion of the State.

At Steelville, Mo., the fall was 9.75 inches and at Holla, Mo., it was 9.25 inches.

The rain extended through a portion of the lake region, the Ohio Valley and Middle Mississippi Valley. The fall in St. Louis was not a record breaker, as at times there have been falls of seven inches or more in St. Louis in 24 hours.

Following the Weather Bureau's announcement regarding the Meramec, officials of the Missouri Pacific and Frisco railroads quickly assembled their emergency forces of men and materials.

Officials of the two roads, whose rails follow the Meramec for miles, said they could stand a rise of 25 feet without serious interference with traffic, but that a stage beyond this level might cause trouble.

In the flood of August, 1915, the highest stage of water ever recorded along the Meramec was reached, 37 feet 8 inches above its low water stage. Both the Missouri Pacific and Frisco were out of commission for nearly a week and all their traffic had to be diverted to other lines. A height of 25 feet will create flood conditions that will occasion much farm damage.

WOULD HONOR KU KLUX KLAN

Texas Confederate Veterans Launch Movement for Memorial.

By the Associated Press.

FORT WORTH, Tex., Oct. 27.—Headed by the Robert E. Lee Camp, whose membership includes Gen. K. M. Van Zandt, commander in chief of the United Confederate Veterans, a movement has been launched by local veterans for the erection of a monument to the Ku Klux Klan, which flourished in the South in reconstruction days.

Plans call for erection of the monument by public subscription at some Southern city to be designated later.

Are you going to the theater or movies tonight? If so, see Page 14.

VOTE IS TAKEN UNEXPECTEDLY; 9 REPUBLICANS VOTE WITH DEMOCRATS

Lodge Permits Roll Call on Equalizing Amendment During Lull in Debate on Treaty—One Democrat to Support a Reservation on Same Subject.

SPENCER FOR IT; REED, ILL., ABSENT

Gore and Shields Are the Only Two Democrats Recorded for Amendment—Moses' Clause on Voting Power Taken Up.

By the Associated Press.

WASHINGTON, Oct. 27.—The Johnson amendment to the peace treaty, proposing in effect that the voting power of the United States in the league of nations be increased to equal that of Great Britain and her dominions, was rejected today by the Senate.

The vote was 38 for the amendment and 40 against it.

Vote Comes Unexpectedly.

The vote came unexpectedly during a lull in the debate and while several Senators who had intended to speak were absent. Senator Hitchcock, the administration leader, had asked that 1:30 p. m. be set for the roll call, but Republican Leader Lodge said he saw no reason why it should be delayed.

After the result had been announced Senators Smith, Georgia, Ashurst, Arizona, and Phelan, California, Democrats, announced that they had been present they would have voted against the amendment. Senator Phelan said he would support a reservation on the same subject.

When the Moses amendment also dealing with voting power in the league was taken up, Senator Shields, Democrat, Tennessee, offered a substitute, there were indications, however, that a final vote would be reached before adjournment today.

Senator Reed Confined to His Bed With Grip.

Special to the Post-Dispatch.

WASHINGTON, Oct. 27.—Senator Reed, who was to have spoken today for the Johnson amendment to the peace treaty, is confined to his bed with grip. He is expected to be out in two or three days.

SENATE BILL WOULD PROVIDE FOR PROSECUTION OF RADICALS

Measure to Stop Exhibition of Red Flag and Anti-Government Talk Reported Favorably.

By the Associated Press.

WASHINGTON, Oct. 27.—Persons exhibiting the red flag or advocating overthrow of the Government would be subjected to Federal prosecution under a bill ordered favorably reported today by the Senate Judiciary Committee.

The measure, which embodies proposals contained in bills introduced by Senators Sterling, North Dakota; Walsh, Montana; and others, provides maximum penalties of \$1000 fines and five years' imprisonment, or both. Should aliens be convicted of violations, their deportation would follow at the conclusion of the prison sentences.

De Valera Speaks at Kansas City.

By the Associated Press.

KANSAS CITY, Mo., Oct. 27.—As the founders of America sought the aid of France, Ireland sought the aid of America, in her efforts to establish a republic, Eamon de Valera, "President of the Irish Republic," told an audience of several thousands here last night. De Valera was given ovation which continued 20 minutes when he appeared in the hall.

First, last, always in time of need use Post-Dispatch WANT ADS.

Comparisons in Sunday Advertising!

POST-DISPATCH vs. The Globe-Democrat and Republic Combined

In Sunday advertising St. Louis' "One Big Newspaper," as usual, greatly exceeded both other papers added together. As proven by the following figures:

Total Paid Advertising—	
POST-DISPATCH alone	552 Cols.
Both other Sunday papers combined	500 Cols.
POST-DISPATCH excess over both	52 Cols.
Home-Merchants' Advertising—	
POST-DISPATCH alone	248 Cols.
Both other Sunday papers combined	264 Cols.
National Advertising—	
POST-DISPATCH alone	138 Cols.
Both other Sunday papers combined	94 Cols.
POST-DISPATCH excess over both	44 Cols.
Real Estate Wants—	
POST-DISPATCH alone	106 Cols.
Both other Sunday papers combined	142 Cols.
POST-DISPATCH excess over both	24 Cols.

THE REASON—Largest circulation of any St. Louis newspaper, daily or Sunday.

OFFICIALS LOOK TO PEACEFUL MEANS IN COAL SITUATION

Deplore Speculation on Use
of Troops or Forced Oper-
ation of Mines—Thought
Is "Not of Warfare."

NEED OF ARBITRATION
TRIBUNAL URGED

Stand of Ultra Conservative
Employers Has Aroused
Resentment Among Con-
servative Labor Leaders.

BY DAVID LAWRENCE,
A Special Correspondent of the Post-
Dispatch.

WASHINGTON, Oct. 27.—Cool
reasoning processes alone can save
the country from an era of industrial
warfare. The Government is con-
scious of its responsibility and will do
all in its power to prevent, for in-
stance, an interruption in the fuel
supply of the nation. But the Govern-
ment would like to see the dispute
settled peacefully. To that end, any
threat or challenge, any loose use
of the word "Bolshevism" calculated
to give offense to laboring men whose
Americanism is unquestioned, any
denial of rights previously given la-
bor, or any attempt to take advan-
tage of the present situation to with-
draw privileges which labor already
has, is looked upon by the Govern-
ment as dangerous in the present cir-
cumstances and as likely to add to
rather than diminish the chances of
industrial conflict in America.

Government officials do not under-
estimate the gravity of the situation
in which the country finds itself. Not
alone is a coal strike threatened, but
labor is combining not merely on ac-
count of real grievances, but on ac-
count of hypothetical or imaginary
grievances. Action by Congress, for
instance, although still a common af-
fair in one branch of the legislative
department of the Government, has
looked toward the denial of the right
on the part of the railway brother-
hoods to strike. Unquestionably pub-
lic opinion could be persuaded to
support the denial of the right to
strike on any public utility such as
the railroads, but in the absence of
any tribunal or organization certain
to give justice to the railway em-
ployees, the tendency of the brother-
hoods is to join with labor generally
in a general defense of the abstract
and concrete rights of labor.

Many Conservatives Offended.

This has caused a lineup that
might otherwise have been avoided,
similarly, as one high official
pointed out, the misuse of the term
"Bolshevism" and radical is only of-
fending many conservative elements
labor ranks upon whom the country
is absolutely dependent as against
the forces that are preaching rebel-
lion and Bolshevism. In this con-
nection the same official suggested
that employers who would pour oil
on the troubled waters by classifying
all the grievances of laborers as
nothing more than Bolshevism are
contributing toward such a contin-
gency as much as the radicals inside
the labor ranks who selfishly want
and then threaten destruction if they
cannot have their will.

The difficulty is that many em-
ployers of an ultra conservative type
who have fought labor for years, see
in the steel strike and threatened
coal strike such an alienation of pub-
lic sympathy as to enable them to
crush the whole labor movement.
They are in some cases represented
as saying that a coal strike would
not be such a bad thing after all
for labor would be crushed by such a
course beyond the point of recov-
ery. But the disinterested Govern-
ment in charge for the time being
of the nation's welfare does not take
such a view and would prefer that
the talk about victory and defeat for
this or that class in the community
be confined only to the discussion of
number of agitators who actually seek
the overthrow of society and exist-
ing institutions and not to that lar-
ger class which undoubtedly has some
grievances but misrepresents absolutely
the means heretofore suggested for
securing justice upon those griev-
ances.

Cabinet Working Out Plan.

Establishment of confidence in
public tribunals that can arbitrate or
adjust industrial disputes is the cen-
tral need of the situation and the
Cabinet during the present week will
formally work out the details of a
plan already approved by President
Wilson as announced in these dis-
patches last Friday, for the recon-
struction of the public group of the
industrial conference, making of it
not exactly a group representing
classes as such, but a commission of
about 15 men sufficiently familiar
with all phases of the industrial
problem to map a charter or constitu-
tion for the handling of labor dif-
ficulties. The new commission will
go to employers and employees to ob-
tain testimony and the results of
their experiences. Secretary Lane,
who has been firmly pushing the idea
of an industrial conference from the
start, believes that much can be
learned by the country generally by
collecting data on the instances in
which successful enterprises have
been able to avoid difficulties and
strikes. What can succeed in one
case might be useful in another—
at any rate can contribute the gen-
eral principles of industrial justice
on which a program can be based.

Government Considers Plan to Meet a Coal Strike

Continued From Page One.

forts to meet the situation and to
preserve law and order, but on ob-
jection of Senator Borah, Republi-
can, Idaho, the measure went over.

President Wilson's statement on
the strike was commended by both
Senators Thomas and Borah, but the
Idaho Senator said the administration
had announced no definite pro-
gram, adding that if it was the pur-
pose to use the militia to "decimate
people" he would oppose it.

Borah Opposes Gary's Stand.

Senator Borah told the Senate he
was thoroughly opposed to the atti-
tude of Elbert H. Gary, chairman
of the United States Steel Corporation,
and his associates, in refusing
to deal with labor. Senator Thomas
also said he disapproved of Gary's
stand, but added that Congress
should act at once to assure the ad-
ministration of full support in deal-
ing with the coal strike.

Senator Edge, New Jersey, Republi-
can, proposed repeal of the anti-trust
laws exempting labor organiza-
tions from prosecution. Senator
Edge said labor was not really em-
ployed by capital, but by the public,
which must pay the "exorbitant wage
demands now being made."

Appellations from both Democrats and
Republicans greeted an announce-
ment in the House by Republican
leader Mondell that he "most thor-
oughly and most heartily" endorsed
President Wilson's statement regard-
ing the strike. The announcement
was prompted by an inquiry of Rep-
resentative Aswell, Democrat, Louisi-
ana. Mondell sought to have the
President's statement printed in the
Congressional Record, but Aswell ob-
jected.

Subject of Chaplain's Prayer.

The general industrial situation
was the subject of the prayer in the
House by the Chaplain, the Rev.
Henry N. Couden.

"We are," said the Chaplain, "in a
crisis with a crisis which defies
our Government and would over-
throw its sacred institutions, inaugu-
rated by a few hundred thousand
people, and bring about untold mis-
ery, sorrow, grief, and even death,
to the 110,000,000 involved in an un-
warranted dispute between labor and
capital."

"Interpose, we beseech thee, with
all the strength of thy Holy influ-
ence, and so move upon the minds
and hearts of those engaged in the
contest, that law and order may ob-
tain and peace and happiness reign
in our midst, through Him, who lived
and died that love might live in the
hearts of men."

Willing to Negotiate New Scale to
Avert Coal Strike.

By the Associated Press.

INDIANAPOLIS, Oct. 27.—While
preparations for the strike of the
half million soft coal miners of the
United States, ordered for next Sat-
urday, are being continued, it was
said at the international headquar-
ters of the United Mine Workers of
America here today that the miners
are ready and willing to negotiate
new wage agreement between now
and Nov. 1 that will avert the strike.

Ellis Searles, editor of the Mine
Workers' Journal, the official publica-
tion of the organization, said "the
miners are ready and willing to
have been—to negotiate a new wage
agreement between now and Nov. 1.
The operators have rejected proposal
after proposal. If the Government
would use the same amount of pres-
sure on the operators that it is using
on the United Mine Workers of
America, there would be no trouble
in bringing about a settlement. All
pressure, so far, has been on the
miners and none on the operators.
The Government could bring the op-
erators into conference easily, if it
wanted to."

"The organized miners do not want
to strike—it is a last resort. It is,
and always has been, the policy of
the mine workers to use all honor-
able means to avoid a strike. We
hope the operators yet may be in-
duced to meet the miners and reach
an agreement, which will make the
strike called for next Saturday un-
necessary."

"We want the public to know that
the miners have done everything in
their power to bring about a confer-
ence so that a new wage agreement
could be negotiated and the strike
avoided. Up to this time our efforts
have been unavailing; the opera-
tors seem determined to force a
strike on the public in order to main-
tain the high price of coal at the
mines."

Should the strike go into effect

next Saturday, Searles said, every or-
ganized bituminous coal miner in the
United States would cease the pro-
duction of coal and a large number
of non-organized miners would join
the strike. He estimated that be-
tween 500,000 and 600,000 men
would walk out. And added that
the Government estimated that the
shutdown would cost \$8 per cent of
the bituminous coal produced in the
United States.

The strike, according to Searles,
would affect the partially organized
fields of Central Pennsylvania, parts
of West Virginia, excluding the Po-
cahauntas field, which is not organ-
ized; portions of Eastern Kentucky;
Alabama and Colorado, and all of the 100 per cent or-
ganized fields, which include Ohio,
Indiana, Michigan, Illinois, Western
Kentucky, Missouri, Kansas, Oklaho-
ma, Montana and Washington. Bi-
tuminous miners in Canada will not
be affected.

A "suitable reply" to President Wil-
son's statement, holding the impend-
ing coal miners' strike to be not only
unjustifiable but unlawful, probably
will be drawn up at the meeting of
the international executive board of
the United Mine Workers of America,
to be held here on Wednesday, ac-
cording to a statement by William
Green, secretary-treasurer of the
United Mine Workers. Green said
it was an impossibility now to rescind
the strike order.

"I suppose that a suitable reply to
the President's statement will be
drawn up at the meeting on Wednes-
day," Green said. "The meeting had
already been called for that date but
consideration of the President's
statement will now be the most im-
portant discussion before the board."

"Threats Will Not Prevent Strike,"
Says Lewis.

By the Associated Press.

SPRINGFIELD, Ill., Oct. 27.—
Prefacing his announcement with the
statement that he had received no
communication from Government
sources as to President Wilson's
statement against the threatened strike
of soft coal miners, Nov. 1, John L.
Lewis, acting president of the United
Mine Workers of America, today de-
clared, "The widely heralded intima-
tion that force may be resorted to
will not serve to have the crisis and
the threats to prosecute and in-
carcerate myself and associates will
neither prevent the strike nor termi-
nate it if it occurs," Lewis said.

Visited at his home here, where he
came last night, seeking rest, Lewis
stated there were no new develop-
ments in the strike situation. He
was keeping in touch with interna-
tional headquarters at Indianapolis
by long distance telephone.

There is even yet a way in which
this strike may be averted," Lewis
said. "The Government should as-
semble the coal operators and use its
power and influence to secure from
them for the miners a just consider-
ation of their demands. An agree-
ment could be reached within three
days if the coal operators would ap-
proach the question in good faith and
with open minds."

Lewis declared the refusal of the
operators to negotiate a new wage
agreement and their insistence that
the present contract does not expire
until April 1, 1920, was the crux of
the whole matter.

Interest turned today to a meet-
ing of the international executive
board, Wednesday, at Indianapolis,
called by Lewis before the Presi-
dent's statement, at which plans
were to be made in furtherance of
the strike. It is not known today
whether any attitude toward Presi-
dent Wilson's "ultimatum" will be
assumed by strike leaders prior to
the executive board conference.

Lewis said at Bloomington on his
way here:

"I am an American, free born, with
all the pride of my heritage. I love
my country with its institutions and
traditions. With Abraham Lincoln, I
think God that we have a country
where men may strike. May the
power of my Government never be
used to trample and crush the efforts
of the toilers to improve their mate-

rial welfare and elevate the standard
of their civilization."

When asked to make a statement
on the rights of the miners to strike
on Nov. 1, in the face of the critical
conditions, he said:

"The coal operators have not of-
fered single cent consideration for
negotiation designed to avert this catastrophe.
All through the negotiations at Buf-
falo, later at Philadelphia and still
later at Washington, the miners
waited in vain for any counter-pro-
posal to be submitted by the opera-
tors. During the conference with
Secretary Wilson at Washington we
said, many times, that we were will-
ing to re-enter negotiations with coal
operators without reservation to con-
clude the making of an agreement
forthwith. The offer that we make
was repeatedly declined. The re-
sponsibility for the stoppage of work
in the bituminous coal districts must
necessarily lie with the coal opera-
tors."

Lewis was asked what answer he
had to make to the contention of the
operators that the contract has not
expired.

"Our contract reads that it was to
continue in effect during the period
from March 27, 1920, and not to ex-
pire March 27, 1920," he replied.
"The war is over. Our soldiers have
returned. All the Government war
agencies are disbanded. A German
vessel of war is even now heading
westward on a peace mission."

In substance, form and reality, the
war is ended and our contract has
expired. We are willing to stand on
the merit of our proposal," he said.

"This 60 per cent increase is subject
to negotiations, as are all demands
of the United Mine Workers. Green
said they will not even negotiate.
"During the last 12 months the
miners of the United States have
averaged only \$7.5 a month, or \$900
for the entire period. The men have
been working on an average of less
than three days a week since the armistice
was signed. Men with families can-
not live on this amount. Children
in mining camps are undernourished.
This is a matter of life and death to
the women and children of the
miners' families as well as it is to
the public. Charity begins at home.
Our aim is to make a shorter work-
ing period and to distribute the work
over more days during the year."
Lewis said that he had a seven-
hour day, from bank to bank, which
means from the time they leave the
surface of the ground until they get
back. Miners in the United States
have an eight-hour day, but the
women and children of the miners
work a longer day.

Lewis said that he had a seven-

Autos Ran 5 Years Without Single Death

Coroner Is Looking Up Records
for Data to Use in Safety
First Campaign.

In searching records of his office
for data to be used in safety work
publicity in St. Louis, Coroner Vitt
has discovered these facts:

Automobiles were operated in the
streets of St. Louis from Jan. 3, 1902,
to March 21, 1907, without causing
death to any pedestrian or automo-
bile occupant.

Since the first death there have
been 520 others in the city.
There are fewer automobile acci-
dents on Locust street, which has
the city's heaviest automobile traf-
fic, than on other streets which are
much used by automobiles.

The number of licenses in the
years in which there were no acci-
dents was as follows: 1902, 124;
1903, 285; 1904, 779; 1905, 1040;
1906, 1124.

The number of licenses and the
number of deaths in the years fol-
lowing were:

Year	Licenses	Deaths
1907	1,529	4
1908	1,820	6
1909	2,820	6
1910	4,092	7
1911	4,771	15
1912	6,497	21
1913	8,758	45
1914	10,450	45
1915	14,246	55
1916	17,354	69
1917	24,301	79
1918	27,496	100
1919 (to date)	35,000	71

Note—Deaths within the last few
days, not recorded when these
figures were prepared, make the un-
official total so far this year 76.
Vitt declares that the pedestrian
must not depend upon the automo-
bile driver to watch, but must watch
himself. He says that the compara-
tively fewer number of accidents on
Locust street demonstrate the value
of pedestrians' carefulness. "Every-
one knows that Locust street swarms
with automobiles. Hence more peo-
ple look in each direction before
crossing that street," he said. "The
result is fewer accidents."

The first automobile license in St.
Louis was issued to J. D. P. Lewis of
4611 Morgan street.

500,000 to Aid in Church Campaign.

By the Associated Press.

NEW YORK, Oct. 27.—An army
of 500,000 speakers and "minute
men" will be employed throughout
the country next month to explain
to business men the organization and
purposes of the inter-world church
movement of North America. It is an-
nounced here. Speakers will be sent
to as many business and fraternal
gatherings in all Protestant churches
active in the movement.

Declaring that a general strike
would seem, in effect, to substitute
soviets for the duly constituted au-
thority of the land," he suggested
that "compulsory arbitration" of dif-
ferences between employers and em-
ployees might become necessary.

"Wherever a strike is called
against the American public," his
statement follows:

"The statement of the President
makes the issue plain. When a spe-
cial interest conflicts with the inter-
ests of the people as a whole, the
former must give way. The strike,
no doubt, has been the most power-
ful weapon in the hands of labor to
improve its conditions. So long as
the strike affected directly only the
employees, the public could not ob-
ject. The threatened coal strike,
however, is a strike against the
American public. In fact, it is likely
that the public will suffer more than
the operators themselves."

"Wherever any organization,
whether of capital or labor, becomes
so powerful as to be able to give or
to withhold from the public the nec-
essities of life, such organization
must come under the control of the
people. Otherwise the part be-
comes greater than the whole. If the
only alternative to a strike or lockout
is compulsory arbitration of differences be-
tween employers and employees en-
gaged in the production of goods,
compulsory arbitration to that extent
will have to come."

"Those leaders of labor who meet
such a suggestion with the threat of
a general strike do not help the
cause of labor. A general strike
would mean, in effect, an effort to
substitute soviets for the duly con-
stituted authority of the land. The
people are not ready to abandon their
form of government."

"Illinois will co-operate with the
President to the extent of its power,
to the end that its people shall not
suffer."

Attitude of Governors on Threatened
Coal Strike.

By the Associated Press.

CHARLESTON, W. Va., Oct. 27.—
Members of United Mine Workers of
America in West Virginia are called
upon by Gov. John J. Cornwell, in a
letter sent to Frank Kenney, presi-
dent of District 17 of that organiza-
tion, to exercise their influence to
avert the miners' strike, called for
Nov. 1. The Governor urges West
Virginia miners to act independently,
regardless of what may be the atti-
tude of united mine workers mem-
bers in other states.

TACOMA, Wash., Oct. 27.—Gov.
Louis F. Hart, in a statement, de-
clares the full power of the State
government will be evoked, if neces-
sary, in support of the stand of the
Federal Government against the
strike of soft coal miners called for
Nov. 1. "The people of this State
shall not freeze for lack of fuel this
winter," Gov. Hart declared.

COLUMBUS, O., Oct. 27.—"The
President has expressed the con-
science of the nation," declared Gov.
Cox, in referring to President Wil-
son's stand against the strike of coal
miners scheduled for Nov. 1.

History of Negotiations Between Min-
ers and Operators

The coal miners' demands for a 60
per cent increase in pay, a six-hour
day and a five-day week were adopt-
ed by the United Mine Workers' con-
vention in Cleveland, Sept. 23.

At a joint conference of operators
and miners at Buffalo, Sept. 25, the
demands were submitted. The opera-
tors maintained the war-time con-
tract did not expire until April 1,

SEARCH BEGUN FOR MEXICAN SLAYERS OF ARMY AVIATORS

Continued From Page One.

ward the border, but returned to
their airplane in 36 hours, when their
supply of water became exhausted.
The aviators drank the water from
the radiator of their plane. This
proved sufficient to allay their thirst
up to the time they were taken to
Bahia Los Angeles from Guadalupe
Bay, where the plane landed, by the
fishermen.

Maj. Bratton in an account of the
expedition said:

"When the Aaron Ward arrived at
Bahia Los Angeles we in a few mo-
ments had discovered the grave.
There was no question that the
bodies were those of Con-
nolly and Waterhouse."

"The two aviators had made a per-
fect landing," he continued, "but
Mexicans subsequently removed the
motor from the fuselage, stole all the
ammunition for the two machine
guns and carried away other equip-
ment."

"We took notes of all the messages
scratched on the fuselage and wings,
the first one of which was made 6
days after the men had landed. In
this men told how they had lost their
way, how they had tried unsuccess-
fully to signal a passing boat;
with their lack of success at catching
fish and the growing hunger which
rapidly was making them weaker. On
the last week of their vigil both men
scratched a farewell message to their
mothers. At that time the men must
have been near starvation."

Shelter 12 Miles Away.

"Sept. 6, the aviators were picked
up by two fishermen from the Mexi-
can sloop Esperanza, who rowed
them in a canoe to Bahia Los Ange-
les. It is doubtful if Connelly and
Waterhouse were given anything
nourishing by the fishermen, just
what the two aviators did between
the time they landed at Bahia
Los Angeles on Sept. 6 until they
were murdered the night of Sept. 11
is not known definitely. It is a pa-
thetic fact, however, that Water-
house and Connelly could have ob-
tained food and shelter at the Los
Forres mine, 12 miles south, if they
had had the strength to traverse the
rough mountainous trail that led to
this refuge."

"We found that Waterhouse and
Connelly had been murdered by two
fishermen from the Esperanza. Water-
house was stabbed to death, evi-
dently while asleep. Connelly was
killed by a terrific blow from some
instrument which fractured his skull.
A few hours later, the evidence
shows the motive evidently was rob-
bery. The Mexicans, however, got
only a few dollars."

"After the murder the Mexicans
covered the bodies lightly with sand.
A few hours later, the evidence
shows the motive evidently was rob-
bery. The Mexicans, however, got
only a few dollars."

discovery was directly due to the fact
that one arm of each of the aviators
was sticking out of the sand. The
Index finger of Connelly's ring hand
had been severed. Waterhouse's
hand and arm showed several stab
wounds.

"Aware of Mexican customs con-
cerning the dead, Capt. Ross did not
take the bodies aboard the Trojan.
His report of the finding of the
bodies did not reach the army in-
telligence office at Nogales until three
days after Joe Richards personally
reported to that office. Richards
found the bodies on Sept. 21."

Full military honors were accord-
ed the aviators as the caskets, draped
with the Stars and Stripes, were car-
ried from the deck of the destroyer
to the municipal pier. Parents of
both Waterhouse and Connelly were
at the dock to meet the destroyer
when she docked.

LEAGUE OF NATIONS TO PAY
WORLD LABOR CONFERENCE BILL

By the Associated Press.

WASHINGTON, Oct. 27.—Ex-
penses of the International Labor
Conference, which convenes here
Wednesday, are being paid directly
out of the treasury of the league of
nations, Ernest Greenwood, secre-
tary of the league, who is in
charge of arrangements, announced
today. Funds are received by H. E.
Butler, secretary of the Organizing
Committee of the conference, direct
from Sir Eric Drummond, secre-
tary-general of the league, he said.

Congress was requested recently to
advance \$200,000 with the under-
standing that the money would be
refunded by the league, then without
a separate treasury, but final action
has not been taken.

With the ratification of the peace
treaty by England, France and Italy,
however, the league has been able to
establish itself financially, most of
the money having been advanced by
England. It is understood that France
was said to have advanced approxi-
mately \$25,000.

All of the secretaries, clerks and
stenographers, many of whom are
foreigners, who are being added daily
to the conference administrative
staff, are employees of the league,
said Greenwood.

WHISKY THIEVES GET BOLDER AND KEEP POLICE BUSY

\$25,000 Worth Taken From Three Armed Men Who Were Hauling It Into Storage Firm's Yards.

\$51,300 WORTH OF LIQUOR STOLEN

Six Men Are Under Arrest, Including Officials of Superior Products Co. and Auto Dealer.

As actual prohibition approaches, and the value of whisky soars, liquor thieves are getting bolder, and some persons are using desperate expedients to evade the law. The police had a busy time Saturday night and Sunday with lawbreakers in whose activities whisky was the moving factor.

It was learned last week, officials said today, that six men came here with an ample supply of money, to buy up all the available whisky, which they proposed to "bootleg" in the South. It was planned to ship it down the river by boats, they said. Their visit is believed to have resulted in at least one, and possibly more, of the incidents of Saturday night and yesterday morning.

The largest single transaction was the seizure of an automobile truckload of whisky at 1:30 a. m. yesterday, when it was driven into the yard of a storage company at 1573 Tower Grove avenue by three armed men who were surprised and arrested by detectives who had been given a tip earlier in the evening.

While a truck was being loaded at the Superior Products Co., 2617-19 Olive street, about midnight, several bottles were broken, and some person notified the police, who arrived at the scene at 1:30 a. m. The driver, the name on the truck had been taken, and was given to the police, which led to the stationing of detectives in the yard of the company whose name appeared on the truck.

Ernest Baumgarten, 39 years old, president, and his brother, Sam, 43, secretary of the Superior Products Co., both of whom reside at 5592 Pershing avenue, were arrested yesterday afternoon on the statements of Ernest Dexter, 25 years old, the chauffeur of the truck, who said, after his arrest, that the Baumgartens hired him to haul the liquor. They denied it.

Armed, But Do Not Shoot. Dexter, who lives at 4208 Atlantic avenue, had a revolver when arrested. On the seat beside him was a rifle and a hand saw, and a .45 caliber revolver in his hand, and sitting in the rear and was Robert Thomas, 47, a Memphis automobile dealer and a guest at the Hotel Jefferson, who had a rifle between his knees and a pistol in his pocket. There were 1000 rounds of ammunition in the truck. Not a shot was fired when the detectives stepped out of the shadows with leveled revolvers and ordered the men to surrender.

The truck contained 314 gunny bags, each containing a case of whisky and half-pints of whisky. Thomas said he helped Murphy buy it to "bootleg" through the South. Murphy would say nothing. This was the whisky taken to Police Headquarters.

Say Launch Was Ready. Police officials, who say their information is reliable, that the whisky came from Baumgarten's establishment, say they also learned that a large launch had been made ready to receive the liquor and take it down the Mississippi River. Thomas and Dexter were released on bonds of \$1000 each; the Baumgartens gave bonds of \$2500 each, and Murphy is held. Policemen say Dexter took the truck without his employers' knowledge.

Earlier Saturday evening, the Government warehouse bonded whisky, which is the old Mutual brewery building at 238 South Boyle avenue, was looted of 20 barrels of whisky, each containing 50 gallons, valued at \$12 a gallon, a total of \$2400.

Private Watchman Arrested. James Walsh, 54 years old, of 1819 Laclede avenue, who is the private watchman there, said three men bound him to a chair and gagged him while they loaded the whisky into an automobile truck. Detectives heard his story, examined the rope with which he said he had been tied, and arrested him.

When the truckload of whisky was seized at the storage plant it was at first thought to be that stolen from the warehouse, but that proved erroneous. No trace has been found of the liquor stolen there.

National Cafe Robbed. James Quinn, proprietor of the National Cafe, 115 North Sixth street, told the police that he discovered the back door of his place broken open at 9 o'clock last night and 25 cases of whisky and 12 of gin missing, all valued at \$1000.

This is the place to which Otto Weiser, 3131 Sidney street, a Deputy Clerk in the Court of Criminal Correction, was removing some whisky from his house the night of Sept. 30, when he was fatally shot. Other whisky for which the police are searching includes the 150 cases which four men hauled in an automobile from the Levy Distillery Co.'s warehouse, 103 North Main street, at

ROOSEVELT'S SPIRIT GREAT INFLUENCE AGAINST SPREAD OF RADICALISM, TAFT SAYS

Declares at Memorial Fund Meeting That He Deserves Tribute to "Rank With Washington Monument."

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Oct. 27.—"It is not for me to speak of the break in the Republican party in 1912, or of the organization of the Progressive party, of which Mr. Roosevelt became the head, except to say that the result demonstrated his wonderful hold on the American people, and the dynamic force which he could impart to a movement that absorbed his interest and energies," said former President Taft, last night, speaking at the Roosevelt memorial meeting in Wolsey Hall, New Haven. Mr. Taft paid high tribute to Col. Roosevelt's life, character and services to the country, saying that he deserved a tribute "that shall rank with the Washington Monument and the Lincoln Memorial."

Asserting that the radical element in labor organizations is attempting to bring about a change in the government of the country, and that the conservatives who deny that this is the purpose of the steel, the firemen's and the proposed coal strikes, "will lapse into the common cause with the radicals," Taft added: "We must resist this attempt to take the country by the throat, and by highwaymen's methods, to force political and unreasonable economic concessions. We face, during the coming winter, the specter of widespread distress and lawlessness, which will require our whole strength to relieve and suppress by the authority of Government."

Roosevelt Living Influence. Saying that "Theodore Roosevelt is not dead," and that "his service to his country has not ended," Taft remarked: "It is in this juncture that the living influence of Theodore Roosevelt and his spirit are of great importance. Americanism can do much for our country and righteousness. The war has impressed laboring groups of every country with a sense of their power, with the indispensable nature of their services, and with the possibility of using this as a leverage to exact from other groups and the whole public any demands which they choose to make."

He insisted that it is the purpose of the radicals in the labor movement "to put the whole of the country under the duress of threatened starvation, freezing and complete paralysis of business and industry, to secure a complete readjustment of social conditions, a redistribution or annihilation of property, and a taking over by the State of all industries and a subjection of a large majority of people to the labor vote."

5 p. m. Saturday. It was valued at \$75 a case. Thieves frightened away. When the thieves came to enter the Cane Bridge Distilling Co. warehouse, 212 North Second street, at 10 o'clock last night, but the watchman frightened them away from the front door, he told the police.

With the approach of actual prohibition, many persons are resorting to all sorts of measures to obtain whisky, policemen say. Detectives say they are slow to credit some reports of whisky thefts, for this reason: When a dealer sells a quantity of whisky from his warehouse, he has to pay a heavy tax. He doesn't have to pay any tax for having it stolen.

LEGION POST CONDEMNNS PLAN TO SEND RELIEF TO GERMANY

East St. Louis Veterans Say Formation of County Organization "Borders on Treason."

Members of Enright-Hay Post of the American Legion have adopted resolutions condemning the action of the "St. Clair County War Relief Association," formed for soliciting funds for the relief of needy residents of Germany.

A section of the resolution reads: "We deeply deplore and condemn such activity on the part of those citizens of St. Clair County identified with this movement, and we brand their action as un-American and unpatriotic, to a degree bordering close to treason; and we respectfully show to the people of our community that but one short year ago we were overseas, bending the best efforts of our mighty fighting machine toward the destruction of all things German, and we cannot help but feel that committees are organized solely for the purpose of undoing the work which we have done, and that their motives spring from pro-Germany, which should and will be speedily and efficiently strangled."

A copy of the resolution has been forwarded to Robert Bethman, president of the organization complained of, and also to the United States District Attorney.

Held on Killing Charge. CHATTANOOGA, Oct. 27.—Harry Howard, son of a former Chief of Police of this city, was held to the grand jury in Police Court after a hearing in police court today on the charge of killing H. Golden, a well-known merchant a few days ago. Golden had discovered the presence of an intruder in his store and when he entered was shot and fatally wounded.

JUDGE DENIES JURY TRIALS TO PICKETS

Dyer to "Take Firm Hand" in 32 Cases Charging Violations of Restraining Order.

Judge Dyer in the United States District Court today denied jury trials to 32 members and officers of the United Coal Hat and Cap Makers of America, charged with contempt of court in ignoring a temporary restraining order against the picketing of seven St. Louis cap factories where strikes have been on for several weeks.

Attorneys for the manufacturers argued that under the law defendants charged with contempt were not entitled to jury trials. Attorneys for the union officers and members held that jury trials were permissible under the Clayton anti-trust act.

"In my court these defendants are not entitled to jury trials and they are not going to get them," said Judge Dyer, in setting the hearings for next Friday.

"Strikes Everywhere." "The strike situation has gone about as far in this country as we can afford to let it go," said the Judge. "There are strikes everywhere, some justified and some unjustified. There should be a warning of what is coming in the coal strike which has been threatened and which has caused the President to announce that he will interfere to prevent it."

"The situation is acute and there is no use talking about delay. It is up to us and the people have got to meet it. If the courts are to be ignored when they attempt to enforce laws passed by the Congress it is time to act and deal with the situation as a firm hand. As long as we are on the bench I am going to deal with these situations firmly."

"When people will not leave these matters to the Supreme Court of the United States, when law and order is threatened and when the time comes that people try to ride over the courts, the man who doesn't stand up and fight for his country and its laws is a traitor."

"The Situation Growing Worse." "The situation has been growing worse and worse," Judge Dyer said. "If it continues for a year or more when a President of the United States had to threaten to call out the Federal troops in a railroad strike."

Referring to Max Zaritsky, president of the union, and Carolyn Wolff, its secretary, and organizer, Judge Dyer said: "A Jew immigrant and a woman came here and stirred up trouble when there was no dispute between the workers and those who were working 60 hours. Such things must be stopped."

ST. LOUISAN IS ARRESTED IN CHICAGO ON BIGAMY CHARGE

W. A. Schultz, 29 years old, a machanic who disappeared from his home, 3322 Arlington avenue, on Sept. 17 last, was arrested in Chicago last night on a charge of bigamy. The Chicago police say that he admits having a wife and two children in St. Louis and a wife and a 6-months-old baby in Chicago.

Shortly after he disappeared Mrs. Elizabeth Schultz, his St. Louis wife, whom he married in 1915, obtained a warrant for his arrest, charging abandonment. Two letters had come from Agnes Schultz, the Chicago wife, his wife, who was married on Sept. 28, 1918, when he was in the navy, which the St. Louis wife opened. Schultz denied that he had a wife in Chicago, but disappeared when his St. Louis wife started to work in the city.

The Chicago police reported to the local authorities that Schultz had been married to Miss Agnes Bennett, 728 Clarence avenue, Chicago, by a Justice of the Peace and that two weeks later the ceremony was performed at St. Paul's Church. At the time the report was made Schultz had left the Clarence avenue address, but was working at the Western Electric Co. The Chicago police asked that the case be tried in Chicago, where the second marriage is said to have taken place.

LUKART GIRLS BACK HOME. WANT TO SEE THEIR MOTHER

Children Poisoned by Parent Return Well Again to Detroit With Father. Special to the Post-Dispatch. DETROIT, Mich., Oct. 27.—"Papa, where's mamma? I want to see her. I want to see my mamma." A man and two mischievous little girls stood in the Michigan Central Station early today, the children searching eagerly for their mother. They were Roy Lukart and his baby girls, Edna and Shirley, home once more in the city that never expected to see them again and that banished their mother to an asylum.

A small gathering greeted the Lukarts at the station. Porters were loaded with clothing, toys and candy. Edna clasped a teddy bear and Shirley hugged a go-to-sleep doll. Both kept close to their father. "Hello, Edna; hello there, Shirley," he called to his children. "I want my mamma," Edna was whimpering. "I want my mamma," Papa, where's mamma?" asked Shirley.

At the lonely bungalow in Royal Creek, where Mr. Hazel Lukart poisoned the children, causing them to be rushed to Chicago for treatment, a smiling housekeeper was waiting. Edna and Shirley were told their mother "was away on a visit." "I want to see her soon," promised Lukart.

The situation is not clear as to the other parts of the line, where the General asserts the Bolsheviks are fighting like "madmen."

Are you acquainted with those little opportunity-bringers—Post-Dispatch WANTS ADS?

Third Paris Subway Strike. By the Associated Press. PARIS, Oct. 27.—Employees of the Paris subway have decided to strike for this third time this year.

HOWNE RATES AFFECT HOME ELECTRIC BILLS

Analysis of Schedule Proposed by Union Company Made for City.

An analysis of the effect, on householders purchasing electric current, of the new scale of rates which the Union Electric Co. has submitted to the State Public Service Commission, has been filed with the City Counselor's office by Ralph Townsend, who made the analysis for Director Hooke of the Department of Public Utilities.

The company has stated that the new scale will mean a decrease in its operating receipts of \$100,000 to \$125,000 a year, if no more current is taken, but that it expects to sell more current as a result of the new rates, and thus to make up the loss. Townsend's report shows that the householders paying a low price for electricity will find their bills increased slightly.

The company's rates are based on an estimate of the number of "active" rooms in a house. For a house with three "active" rooms, which usually means a six-room house, those paying bills of less than \$1.67 a month will find a saving of 1 cent to 6 cents; those paying from \$1.67 to \$2.56 will pay 1 cent to 8 cents a month more, and those whose bills are more than \$2.56 will save 1/2 cent kilowatt hour.

For a house with four "active" rooms, usually a seven-room house, on bills below \$2.22 there will be a saving of 1 cent to 7 cents a month; on bills from \$2.22 to \$3.30 there will be 1 cent to 14 cents increase; and on bills above \$3.30 there will be a saving of 1/2 cent a kilowatt hour.

For a house with five "active" rooms, usually an eight or nine room house, on bills up to \$2.73 there will be a saving of 1 cent to 10 cents a month; on bills of \$2.73 to \$4.04 there will be an increase of 1 cent to 20 cents, and on bills above \$4.04 there will be a saving of 1/2 cent a kilowatt hour.

City Counselor Daues will study these figures, to determine whether they indicate that the city should oppose the new schedule, or should acquiesce in it.

KNOXVILLE CAR STRIKE RIOTS RESULT IN CALL FOR MILITIA

Four Strikebreakers and Two Citizens Are Injured in Clashes.

By the Associated Press. KNOXVILLE, Tenn., Oct. 27.—After a day marked by clashes growing out of a resumption of street car service with nonunion crews, two battalions of the Fourth Tennessee Infantry have been ordered to move into the city.

One infantry company and the machine gun company of the State Guard, which have headquarters here, slept on their arms in Knoxville Armory last night. They were reinforced by several infantry companies from nearby towns today. Adjutant-General E. B. Sweeney, with several aids, is in the city.

Four strikebreakers were injured in fighting yesterday at various points in the city. None was seriously hurt. Two citizens were injured in traffic accidents due to the strike.

Cars started early in the day with nonunion crews after eight days of idleness due to a strike of union carmen, and were operated until night. Two citizens were injured in traffic accidents due to the strike. Cars were stopped at various points. Trolley ropes were cut and crews were heckled and in some cases attacked. Charges of inefficiency were lodged with the City Commission against some members of the Police Department, which is unorganized. One patrolman was suspended pending investigation of a charge of encouraging disorder.

There are only 50 uniformed men in the Knoxville police force, and this number was insufficient to handle the disorderly crowds, regardless of their sincerity. Many Deputy Sheriffs were sworn in, and United States District Attorney W. T. Kennerly took a hand in moving crowds on several occasions. The Federal Government being interested in the situation, as all street cars here carry mail boxes.

WARNS ENGLAND ON RACE SUICIDE

Father Vaughan Tells Tuberculosis Congress That the Empire Must Not Be Stinted.

LONDON, Oct. 27.—Father Vaughan, well-known for his work among the poor of London, in a forceful address at a session of the Congress on Tuberculosis Prevention, said: "It is terrible to think, when the death rate has exceeded the birth rate so greatly, when the nurseries are silent and the divorce courts are clamorous that tuberculosis is also making a heavy levy on human life. We should have throttled tuberculosis long ago. It is healthier in some of the slums of London than in the fashionable district of Mayfair."

Referring to the decrease in the birth rate, Father Vaughan declared: "We want all the children possible. We do not want birth prevention. We want the empire and making it a disgrace in God's eyes."

U. S. Torpedo Boats in Messina, Italy. By the Associated Press. MESSINA, Italy, Oct. 27.—Four American torpedo boats, numbers 111, 132, 137 and 157, have arrived here.

ROMANOVKA ATTACK ENDED IDEA OF AMERICANS THAT BOLSHEVIK WERE FRIENDLY

Theory of Benevolence Died When Morning Attack From Ambush Snuffed Out Lives of Soldiers.

By PAUL R. WRIGHT. A Special Correspondent of the Post-Dispatch.

VLADIVOSTOK, Siberia, Aug. 3.—Siberia, that graveyard of reputations, has produced at least one incident worthy to rank with the classics of our nation's history and traditions, the American defense in the Romanovka massacre. There is a grim manifestation about the sturdy maintenance, spilling blood and teeth and sweat, of the American defense in the Romanovka massacre. There is a grim manifestation about the sturdy maintenance, spilling blood and teeth and sweat, of the American defense in the Romanovka massacre. There is a grim manifestation about the sturdy maintenance, spilling blood and teeth and sweat, of the American defense in the Romanovka massacre.

But when these people, call them Bolsheviks or exasperated peasants or partisans, as you please, fired their fatal volley from ambush on the hillside above the American camp and snuffed out the lives of fourteen good American boys, they lay in their beds, then the theory of Bolshevik benevolence came to an end.

Guarding the Coal Lines. The little village where the American soldiers were done to death is in the neck of the east Siberian rail route. That is to say, the coal supplies for all that part of the world come from the Suchan coal mines. Romanovka is one of the numerous stations on the broad gauge railway between the coal deposits and the Trans-Siberian line. All the coal from Suchan has to pass over the mountains and down the railway through Romanovka. The assault upon the American camp was an integral part of a well-planned Bolshevik campaign to gain control of Siberia by cutting off the fuel. The killing of Americans and the destruction of American prestige were also objects.

The American forces in that part of the country were performing two quite obvious functions—first, they were keeping intact the coal mines and the coal mining apparatus; and the accumulation of coal of the coal mills and dynamite depots, patrolling the railway by which this coal was brought out from the mountain fastnesses. All the railways in eastern Siberia are dependent upon this coal supply. Without the coal the mills and dynamite depots cannot be operated nor can houses and barracks be warmed. The general wellbeing of Siberia leans hard upon Suchan coal and the coal road.

How have the Americans with their meager forces succeeded in protecting what was intrusted to them? Not very well. Within three days, in the latter part of June, 1919, the Bolsheviks brought their hostile enterprises to a climax. On June 24 they struck a paralyzing blow at the coal industry. On June 25 they struck a blow at the dynamite depots. On June 26 they struck a blow at the coal mines. On June 27 they struck a blow at the coal mines. On June 28 they struck a blow at the coal mines. On June 29 they struck a blow at the coal mines. On June 30 they struck a blow at the coal mines.

The official records of some of these men are as follows: "Second Lieutenant Lawrence D. Butler, 31, though twice wounded, fought seriously in the face, continued to fight, using a rifle himself. "Corporal Valerian J. Brodnicki, Company A, 31, seriously wounded, went through heavily fired upon and made his way to nearest assistance at Novo Neshino, about seven miles from Romanovka, where his comrades were hard pressed by vastly superior numbers. "Corporal Leo Lunsford passed through a heavily fire-swept area and proceeded to Novo Neshino, seeking assistance for his hard-pressed comrades. "Roy V. Jones, first class private, and Emmet E. Lunsford, though wounded, continued to operate automatic rifles through the fight. "First Class Private Oscar B. Tucker, though surrounded by enemy forces, was conspicuously conspicuous from one point of the enemy, who were trying to close on the houses occupied by our men. Tucker passed the fire-swept zone and returned with ammunition. "Gustave A. Schlechter and Densle Carr crossed fire-swept street and returned with ammunition for their hard-pressed comrades. "George Strakey, though wounded, continued to use his rifle effectively."

Men Held to Task. The behavior of the men improved as the morning wore on. At one time three or four of them were overheard discussing the possibility of running away. This would have meant leaving the wounded to an enemy that had no mercy, being thoroughly steeped in ruthlessness. Butler overheard the conversation and remarked that he would shoot personally "any" man who attempted to make a getaway. The tentative movement died right there. At least two of these men, a little while later, cheerfully risked their lives when they volunteered to go for ammunition.

The Americans who died in the Romanovka disaster and those who survived, many of them grievously wounded, were the victims of certain misapprehensions which have characterized too many American activities in Siberia.

Neutrality was impossible there. The small number of our troops, their scattered condition and our American trustfulness constituted nothing less than an incitement to insult and attack. The result had to be disaster. Nothing less would show the falsity of our position. The necessary catastrophe occurred at Romanovka in the Suchan mining district.

Theory of Benevolence Dies. The theory of the benevolence of the Bolsheviks or "exasperated peasants," as some Americans called them, or of the "partisans," as they call themselves in that corner of

and cumbersome buckets, traveling on steel cables, after which comes the narrow-gauge railway, upon which the cars are pulled by locomotives. When difficult grades are reached, up the hills and down them, the little cars are hooked on steel cables and crawl at a snail's pace to the next point. At Kanga the coal is dumped into the larger cars of the broad gauge.

If an enemy wished to destroy the usefulness of the mines all he needed to do was to blow up the power houses and hamstring the cable system. Moreover, the entire transmountain idea was wrong, because there was an easier way out of the coal country. From Suchan to the east and south run broad and level valley floors that lead directly to American Bay, which is only a few hours' run by steamer from Vladivostok. The engineers should have laid down a line of track there in the first place. But they probably had in mind Japan, and the possible arrival of Japanese fleets.

Then the Bolsheviks blew up the cable system. No matter how much coal the miners might produce it could not get out. The coal is likely to remain there for some time, as certain American engineers said recently that repairs could not be made inside of two years.

Americans Put Up Defense. The Romanovka affair showed the Americans exactly the temper of the people they were dealing with, and henceforth they acted accordingly. No more notices were to be posted by company commanders warning the men to be good to the Bolsheviks. There was no longer any reason for supposing that the Bolsheviks were at heart amiable toward the foreigners. Small detachments were called in, stockades were built, camps moved from exposed valleys to commanding hilltops, bushes were cut down and the outposts were ready. Romanovka can never be repeated.

The Bolsheviks attacked Novo Neshino at dawn, just as they had attacked Romanovka at dawn the day before. But Lieutenant Otto C. Company, Thirty-first Infantry, had had the benefit of the lesson administered at Romanovka and devised a little stratagem of his own. During the night the men moved back from the tents to a place of safety behind railway piles and the outposts were moved in. The Bolsheviks came in at dawn slipped through the tents unobtrusively, joining their comrades behind the piles. When the Bolsheviks opened fire the Americans were thus in a position to "give 'em hell," as the army phrase is, and did so. Officially the Bolsheviks were repulsed with great losses.

Americans Are Alert Now. There was intermittent sniping and there were minor encounters between the American and Bolshevik forces in this part of the country for several days, but, generally speaking, it was all over. The Bolsheviks had stopped the egress of coal, had almost annihilated one American company, and had been severely drubbed by another. This was enough for one summer. But since June 25, no Bolsheviks have been allowed to "gang up" in Eastern Siberia. The Americans have adopted an aggressive policy. They go and get them, in expeditions by night and by day. (Copyright, 1919, by Chicago Daily News)

PASTOR PUTS ON GAS MASK

PROVIDENCE, R. I., Oct. 27.—When St. Joseph's Catholic Church at Burrillville was burned the Rev. John S. Dunn, pastor, with a gas mask over his face, tried repeatedly to approach the altar to rescue the altar, but was driven back by the heat.

Sprays and Local Application Will Not Cure Catarrh

Don't deceive yourself, if by the persistent use of sprays, douches, salves and other local applications you have stopped the discharge from your nose and throat, the trouble will return in a more aggravated form.

It is said that the glands of the nose and throat act as an "emergency plug" for the human sewage system; that when the kidneys, skin and lungs are unable to properly dispose of some of the impurities that collect in those organs, such impurities are thrown out through the glands of the nose and throat.

Head colds, due to exposure, must not be confused with that chronic, aggravated condition of the nose and throat known as catarrh. There is no better treatment than Plough's Prescription Catarrh, the great blood purifier. This reliable alternative prescription treatment corrects the impure state of the blood, gives the tissues an opportunity to excrete their normal functions and results in the relief of the catarrhal condition as dangerous to good health.

To secure the best results in taking Plough's Prescription Catarrh, the liver should be made active and the bowels regular. 2223 Liver Pills are recommended especially for this purpose. These pills do not sicken or gripe on use, but a dose and only three need be taken a week to keep the liver and bowels in a healthy condition.

Plough's Prescription Catarrh can be supplied by any good druggist in large bottles for \$1.50. The Pills for 25c; or the 2223 Laboratory, Memphis, Tenn., will mail both postpaid on receipt of \$1.75. Samples of the Liver Pills and leaflet regarding Plough's Prescription Catarrh will be sent you without charge on receipt of this clipping with name and address.

BUSINESS MEN SEEK UNIFIED RAIL PLAN

Support for Its Scheme for Carrier Control to Be Asked by Trade Conference Body.

Simultaneous announcement was made in Chicago and St. Louis yesterday that business men attending an international trade meeting in Atlantic City last week had appointed a "co-operative committee" to endeavor to unite the business men of the country on a plan for the control of railroads.

The announcement in St. Louis was made by George W. Simmons, vice president of the Simmons Hardware Co. and vice president of the Railways Business, a national organization of firms selling goods to railroads. In Chicago the announcement came from H. H. Merrick, president of the Mississippi Valley Association and of the Chicago Chamber of Commerce.

Clarence H. Howard, president of the Commonwealth Steel Co., is a member of the "Co-operative Committee" named in Atlantic City. The committee has prepared a basic plan for railroad control and now is about to submit it to business generally for discussion. Following is the basic proposal:

- (A) A transportation board to determine the requirements for provision of adequate transportation and the effective co-ordination of rail, water and highway facilities.
- (B) Determine the financial requirements of the carriers.
- (C) Certify revenue required.
- (D) Regulate wages and conditions of labor.
- (E) Exercise final authority over consolidations and security issues.

Diphtheria

A sore throat is a good breeding place for Diphtheria germs. Protect your children by never neglecting a Sore Throat. You can wisely depend upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat against Diphtheria germs. Keep TONSILINE in the house always. 35¢, 50¢, and \$1.00.

When in any trouble, just naturally turn to Post-Dispatch WANT ADS, and they'll point the way out.

ARTS AND CRAFTS SHOW HONORS NINE WOMEN'S ORGANIZATIONS

Nine days at the St. Louis Exposition of Industrial Arts and Crafts have been designated to bear the names of women's organizations as follows:

Tuesday, Associated Patriotic Societies (this also is "Missouri Day"); Friday, League of Women Voters; Saturday, Women's Trade Union League; Nov. 3, Eighth District Federated Women's Clubs; Nov. 4, Catholic Women's League; Nov. 5, Women's Chamber of Commerce; Nov. 6, Wednesday Club; Nov. 7, Women's Republican Organization; Nov. 10, Women's Auxiliary of the St. Louis Democratic Party. Other organizations which likely will have special days are the College Club, Junior League, Town Club and the Morning Choral Society.

The program for tomorrow, which has been designated by Gov. Gardner as "Missouri day," includes speeches by Gov. Gardner, Lieutenant-Colonel Robert Burkham and Serjt. Michael B. Ellis. Members of a large number of patriotic societies will serve in the "Dazzle Room" from 3:30 to 5 p. m.

A musical program will be presented in the auditorium this evening. P. E. Conroy, president of the National Association of Music Merchants, will speak on the "History of the Music Roll." Judge Charles Claffin Allen will speak on "The Relation of the Art of Music to Industry." Miss Florence Levering, vocalist, will sing several numbers, with Prof. E. R. Kroeger at the piano.

PLANS FOR MUSIC WEEK, NOV. 4 TO 11, PERFECTED BY TEACHERS

Program Will Include Neighborhood Receptions and Concerts by Noted Artists.

Arrangements for observing Music week, Nov. 4 to 11, were perfected by teachers of the art yesterday at the Musical Arts Building, Boyle avenue and Olive street. One feature will be a series of receptions, to be given collectively, to all interested in music and the movements of the week.

One reception will be given at the Odeon, another at the Studio Art Building, and another in the Musical Art Hall, making them a series of neighborhood entertainments for each part of the city. Other receptions will be given in different sections of the city.

It also was decided to launch a co-operative campaign of advertising in the newspapers, calling attention to the purposes of Music week and to the personnel of the music-teaching forces of the city.

It was announced that in connection with Music week, Fritz Kreisler will appear at the Odeon Nov. 8, a "pop" concert by the St. Louis Symphony Orchestra will be given at the Coliseum Sunday afternoon, Nov. 9, and Mrs. Samaroff, the pianist, will appear in the Statler ballroom Nov. 10.

The Tickle Makes You Cough. Hays' Healing Honey Stops the Tickle by Healing the Throat. 35¢ per bottle. —Adv.

PRINCE IN WASHINGTON NOV. 11

Arrangements for Entertainment During 3-Day Visit Not Announced.

KINGSTON, Ontario, Oct. 27.—The Prince of Wales will arrive in Washington on Nov. 11, for a three days' visit, it was announced from aboard the royal train. From there he will go to New York to embark on the H. M. S. Renown, remaining in the American metropolis for a few days, living aboard his ship while there.

Arrangements for the entertainment of the Prince while in the United States capital have not been announced.

The Renown, with the Prince's party aboard, will put in at Halifax en route to England, where the Prince will bid Canada farewell.

PRESBYTERIANS TO MEET HERE

Missouri Synod of Northern Church to Convene Tomorrow Night.

The Missouri Synod of the Presbyterian Church, U. S. A. (Northern), will convene tomorrow night in North Church, St. Louis and Warner avenues, and will be in session through Friday. The opening sermon will be preached by the Rev. W. M. Cleveland of Joplin, moderator of the synod, and will be followed by communion.

Speakers before the synod will include the Rev. Dr. David R. Breed of Western Theological Seminary, Pittsburg, who will speak tomorrow night; Dr. John McDowell and Dr. David G. Wylie of New York, heads of church boards, and Dr. W. B. Greenway of Philadelphia, of the General Committee on Evangelism.

SCHWARTZ FUNERAL WEDNESDAY

Son of St. Louisan Was Killed in Florida by Train Saturday.

PUTS OUT FIRE IN BATHTUB Woman's Night Dress Is Ignited at Grate in Bedroom.

Miss Harriet Raeder, 48 years old, 3643A Dodder street, a chewing gum vender, was seriously burned about the arms and body at 3 a. m. yesterday when her night dress caught fire from a grate in her bedroom. She saved herself from more serious injury by jumping into the bathtub and turning on the water. She was taken to the city hospital, where her condition is said to be serious but not critical.

"Advising all my Friends to Use Internal Baths"

Miss Etta May Mills of 3716 Central st., Kansas City, Mo., writes to the Tyrell Hygienic Institute:

"I have received your letter showing an interest in the results I received from the 'J. B. L. Cascade.' In my opinion it is wonderful and should be in every home."

"I am doing a lot of talking for it and my friends are all interested."

"The 'J. B. L. Cascade' cleanses the lower intestine its entire length and keeps it always free of poisonous waste. Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment."

Jude & Dolph Drug Co. Stores in St. Louis will be glad to show you the "J. B. L. Cascade," explain its simple operation and will give you, free on request, an interesting little book by Dr. Chas. A. Tyrell of New York, a noted specialist on Internal Bathing for 25 years in that city. Clip this as a reminder to ask for the booklet at your first opportunity.—ADV.

Treasurer Official Resigns.

WASHINGTON, Oct. 27.—Secretary Glass announced yesterday he had accepted the resignation of Dr. L. S. Rowe as Assistant Secretary of the Treasury, to become Chief of the Division of Latin-American Affairs of the State Department.

Wants His Money Back

"I can thank Mr. O'Brien, a member of my recovery from a severe attack of stomach trouble that would have cost me the river just as it was. I had the money to pay for the medicine. It is a simple, pleasant, and effective remedy from the intestinal tract. It is a simple, pleasant, and effective remedy from the intestinal tract. It is a simple, pleasant, and effective remedy from the intestinal tract."

What is it that draws me to the "WANT" column? It is the self-interest. Advertisers reach the right ones.

LADY ASTOR TO BE CANDIDATE

Selection to House of Commons by Plymouth Unionists Is Expected.

LONDON, Oct. 27.—Lady Astor has accepted the invitation of the Plymouth Unionists to become a candidate for the House of Commons in the election of 1920.

husband, Viscount Astor, to the House of Lords. In a telegram to the Unionist committee she says: "Fully conscious of the great honor and grave responsibility, I accept your offer to stand for Plymouth."

Lady Astor will be opposed by both Liberal and Labor candidates. The election probably will take place Nov. 15.

Lady Astor's acceptance of the candidacy makes the prospect excel-

lent that the first woman to sit in the English Parliament will be American-born, as Plymouth is a safe Unionist seat. It is considered unlikely that there will be a sufficient turn over votes to destroy the majority of more than 5000 by which Walcott Astor gained the seat at the last election against the combined Liberal and Labor vote, unless the question of sex should enter largely into the contest.

ALBERT PUTS WREATH ON ROOSEVELT'S GRAVE

Accompanied by Colonel's Son, King Visits Resting Place of Former President.

By the Associated Press.

NEW YORK, Oct. 27.—King Albert of the Belgians placed a wreath yesterday upon the grave of Theodore Roosevelt. There were few witnesses to the ceremony, for the skies were leaden and his majesty passed through Long Island almost unrecognized.

The King and the little party who accompanied him were met at the gates of Young's Memorial Cemetery in Oyster Bay by Lieutenant-Colonel Theodore Roosevelt, who escorted the Belgian monarch to the plot where lies the former President. Albert stood up the slope carrying on his right arm a huge wreath in the colors of his country—yellow chrysanthemums and dark red asters—tied with a wide black ribbon.

The King and the eldest son of the great American went alone inside the iron gate which bars the way against intruders. The monarch stopped and laid the flowers reverently on the grave. Then he stood for a few moments, cap in hand, gazing at the simple granite slab which bears the name of Theodore Roosevelt, bowed deeply and stepped backward outside the fence. There were tears in the eyes of the younger man as he followed.

The little procession, led by the King, which included Rear Admiral Andrew T. Long and Major-General William Wright, walked slowly down the hillside and entered motor cars which carried them to Sagamore Hill. There they were ushered into the famous trophy room, where Albert was welcomed by the widow of Col. Roosevelt, who chatted with him in his own tongue.

At the house to welcome the King, besides the widow, were Mrs. Theodore Roosevelt, Jr., Mr. and Mrs. Kermit Roosevelt, Col. and Mrs. Richard Derby and Mrs. Charles B. Alexander. The party remained at Sagamore Hill about half an hour.

The trip out and back which was begun after the King and Prince Leopold kept on to the Bronx Zoological Gardens.

King Albert late in the day drove to Tarrytown to visit John D. Rockefeller Jr.

The King began the trip today to Washington, which will be reached about 10 p. m. A stop of several hours will be made at Philadelphia. Much of the time there will be spent in an inspection of the Hog Island shipyards.

Queen Elizabeth Pays Dollar to Join American Red Cross.

LOUVE VALLEY, N. Y., Oct. 27.—Queen Elizabeth inaugurated a movement yesterday to make the American Red Cross more beneficial in times of peace, even to the American people themselves. She opened the annual membership drive at the Long Island Country home of Henry P. Davison.

After paying the fee of \$1 and receiving the same certificate of membership as that to which the most humble is entitled for the same consideration, she addressed a gathering of several hundred men and women of social prominence. She pointed out that in peace many problems, such as epidemics and babies' diseases, needed the closest attention of such an organization as the Red Cross.

Gen. Pershing, back from a vacation on Cape Cod and in the Adirondacks, met the Queen at the exercises for the first time since her arrival in this country. He commended her example in paying \$1 and enrolling.

In recognition of her work in facilitating relief measures the Queen was presented a silver medal by Dr. Livingston Farrand, chairman of the Red Cross. She was also given an engrossed copy of an address of greeting to her in behalf of the organization, read by Mr. Davison, former chairman.

KANSAS CITY PLANS MEMORIAL

Campaign Begins for Monument to Men in War.

KANSAS CITY, Mo., Oct. 27.—The Liberty Memorial drive began this morning. Two thousand five hundred organized workers entered upon a thorough canvass which will not terminate until next Saturday. The objective is \$2,000,000 for the erection of a monument and building for the men from Kansas City who were in the war, and \$200,000 for the allied charities.

In connection with their work in obtaining funds for the memorial and the allied charities, the workers will solicit memberships for the Red Cross.

BROKEN LIGHT BULB STARTS FIRE

Causes Explosion of Gasoline Tank and Destruction of Garage.

An electric light bulb that broke caused a gasoline explosion in the garage owned by Mrs. Edward Butler, 3711 Pine street, at 9 p. m. yesterday, starting a fire that destroyed an automobile and the garage, and from which Jim Miles, a chauffeur, narrowly escaped without injury. The loss was estimated by policemen at \$4000.

Files explained he was filling the tank on the machine when an extension light accidentally bumped against the tank, bursting, causing the explosion.

Wants His Money Back

"I can thank Mr. O'Brien, a neighbor, for my recovery from severe colic attacks and stomach troubles that nearly cost me to cross the river Jordan. I spent thousands of dollars in the past five years for doctors and medicine and would have died but for my neighbor's advice to use Mays' Wonderful Remedy. When I had the money back I went for other medicine. It is a simple, harmless remedy that removes the catarrh from the intestinal tract and all other ailments which cause practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded."

Thief Takes Electrical Appliances; Burglars Fail to Open Safe in Factory.

An artful sneak thief was a visitor at the Industrial Arts and Crafts exposition yesterday, according to a report made to police.

His taste for art centered on some displays of the Union Electric Light and Power Co., which he took for his electrical devices valued at \$60.

A safe in the office of the Glass & Sons Manufacturing Co., 906 South Twelfth street, withstood the efforts of burglars yesterday, so the robbers turned their efforts to the desks, rifling three and taking \$48.90 in cash and \$15 in W. S. S. Michael P. Spiller, 27 years old, of 1241 South Sixth street, a clerk, who early yesterday told policemen he had been shot by highwaymen near Sixth and St. Joseph streets Saturday night, was reported recovering from a wound in the abdomen at the city hospital today.

He declared two men stopped him and when he resisted their efforts to rob him, shot him and then took \$19 from his pockets. He was found at Broadway and Park avenue while his wife was trying to lead him to a doctor's office.

Other holdups were reported by Joan Schultz, Spring Quarry, Ill., one man, Seventh and Walnut streets, \$23 and a watch; Ordeella Dornemann, 5212 Gravois avenue, two men, Heidelberg and Gravois avenues, \$20.50.

SPANISH EMPLOYERS DECLARE GENERAL LOCKOUT OF WORKERS

Say Their Action Is Due to Failure of Government to Protect Their Interests.

By the Associated Press. MADRID, Oct. 27.—The congress of Spanish employers, sitting at Barcelona, declared a general lockout of workmen throughout Spain. The lockout order will be effective Tuesday, Nov. 4.

The Minister of the Interior, in announcing the decision to declare a general lockout, said it was an act of provocation against the workers and expressed the hope that the employers would co-operate with the Government in establishing industrial peace, and not carry out the measure.

"At a moment when the workers are asking nothing," he added, "the action of the employers is foolish."

In addition to declaring a lockout against the alleged crimes of the syndicalists, and to take steps looking to the protection of the employers, a Barcelona dispatch says. The employers assert that their action has been taken as a protest against the Government's failure to protect the employers' interests. The employers are dissatisfied with the new social laws granting workers shorter hours and providing pensions.

The Government is taking all necessary measures to deal with the situation. It is probable that the decision to restore the constitutional guarantees will be revoked.

MAN, INJURED BY AUTO, DIES

Was Fixing Own Car on Grand Avenue Viaduct When Struck.

Leo Schrader, 32 years old, 3911 Keweenaw avenue, a paper hanger, died of internal injuries at 12:30 a. m. yesterday at the city hospital as the result of being struck by an automobile, driven by Edgar Burkel, 21, of 3419A DeFonty street, at 11 p. m. Saturday, at the south end of the Grand avenue bridge. Burkel was released on bond.

Burkel told policemen that Schrader was evidently fixing a rear tire of his (Schrader's) automobile, which had been stopped at the end of the bridge. Burkel said he approached at a moderate speed and did not see Schrader or the machine until he was within five feet of them. His car skidded on the wet pavement. Schrader's death was the seventy-fifth resulting from automobile accident.

YOUR DRUGGIST will receive your Want Ads for the Post-Dispatch at the same rates charged at the main office. Try him. He says other things than medicine. Look around.

CAMPAIGN HERE FOR ROOSEVELT MEMORIAL FUND TO END TODAY

Final Appeal for Large Subscriptions Will Be Made to Fill \$50,000 Quota.

The campaign to obtain \$50,000 in St. Louis toward the establishment of three memorials to Theodor Roosevelt will end today with an appeal to affluent firms and individuals for large subscriptions. Mayor Kiel, chairman of the Memorial Committee, said yesterday that he believed that more St. Louisans had contributed to the fund in proportion to the city's population than in other cities of the country, but the contributions have been small and the total is believed to be short of the goal.

However reports are incomplete on the collections in the schools, by municipal employees, by the women in their downtown work, among the railroad men and among negroes. Most of these reports will be made today.

Representatives of 60 business organizations and large firms have been asked to meet the St. Louis campaign committee at the Chamber of Commerce tomorrow at 3:30 p. m. to hear a report of the total contribution and to determine, if it is necessary, what shall be done to keep St. Louis' record of "over the top" in every patriotic drive unmarred.

The Roosevelt drive is marred with patriotic drives, because its purpose is not primarily to honor Roosevelt, but to keep fresh the ideals of Americanism which he advocated and which are held to be good.

MEETING OF TANK CORPS MEN
St. Louisans who were in the Tank Corps will meet in the assembly room of the Central Public Library at 8 o'clock tonight to organize a post of the American Legion and elect officers. The city gave about 600 men to the Tank Corps, and the organizers hope to start the post with 100 members.

One Killed, Two Hurt by Train.
A passenger train on the Missouri Pacific, going east, Saturday evening at 9:30 o'clock, struck at the Burke Crossing, one mile west of California, an automobile containing Will McPherson, Smith Donnelly and Roy Vansandt, from Clarksburg and vicinity. Vansandt was killed instantly. McPherson's arm and leg were crushed and Donnelly's hip was crushed.

Life Insurance Holders

Here are three ways in which this Company can help you with your policy:

First, we can open for you a Special Insurance Account in which you can make monthly deposits and thus simplify and prepare for your annual premium payments. This account will earn interest at the rate of 3%, credited in June and December.

Second, we can insure your insurance by a trusteeship under which our Trust Department will hold securities and apply their income to the payment of your premiums. This is particularly valuable for holders of whole life policies, as it protects the policy from lapse, whatever misfortune may happen to the policy holder.

Third, under another form of agreement with our Trust Department, we can be made beneficiary under your policy, and this means that we will attend to the collection of it at your death, and to the investment of proceeds for your dependents, or payment of the proceeds to them, as you may direct.

Noted British Painter Dies.

By the Associated Press.
LONDON, Oct. 27.—Sir Ernest Albert Waterlow, late president of the Royal Society of Painters in Water Colors, died Saturday night at Hampton. Sir Ernest was a noted landscape painter and received the Turner gold medal in 1878. He became a Royal Academician in 1903.

Brazilian Committee Approves Treaty

By the Associated Press.
RIO DE JANEIRO, Oct. 27.—The general report covering all phases of the peace treaty was ready and approved by the full Committee of Diplomats and Constitution of the Brazilian Congress Saturday. No mention is made of reservations in the report, which will now be sent to Congress, with recommendations that the treaty be approved.

GERMANY FOR GERMANS, IS SLOGAN OF JUNKERS

"Revanche on the Enemy," Junker Preacher Exhorts "Loyalty League" Meeting.

By CYRIL BROWN,
A Staff Correspondent of the Post-Dispatch and New York World.

Copyright, 1919, by Press Pub. Co. (New York World).
BERLIN, Oct. 26.—"Germany for the Germans" is the significant slogan of a new patriotic organization which is being boosted by the reactionary organ, the Deutsche Zeitung. The spirit of old Germany is far from dead and is being vivified further with much noise, vocally.

At a recent nationalistic mass meeting of the "Loyalty League," which was attended by Gen. Ludendorff, who received a great ovation, one Dr. Rump, a Junker preacher, aroused frenzied patriotic enthusiasm by thundering, "Germany, as a nation, must have only one thought, 'revanche' on the enemy."

A similar provocative note was struck by a writer in the Deutsche Tages-Zeitung, who advises German parents that, "although we are hopeless at the present time, at least, teach our children that happiness will not come to us through eternal peace. Our battle cry must be, 'German men, German youths, unite and find a way out of the labyrinth of pacifism.'"

The revival of the German spirit was illustrated typically by a Nationalist member of the National Assembly during the debate on the budget. Said he:

"The influx of countless Entente officers and men is leading to friction. The English and French here should at least wear civilian clothes as the Japanese does." A Democrat, Dr. Ludwig Haas, a member of the Baden Government and National Assembly, wrote recently:

"If the madness of the Versailles peace of violence, which will prove a misfortune for the victors also, is not relieved by a genuine league of nations and honest universal disarmament, then all Germany, regardless of party, will never stomach the military terms of the Versailles peace."

The unbroken Prussian spirit is proclaimed by the former War Minister, Gen. von Stein, in his funeral address on the occasion of the official death of the great general staff: "Fear drives our enemies to suppress the war academy and general staff. Their endeavors will be in vain. The form can be broken, the spirit never."

JELlicoe PRAISES MAHAN.

British Naval Man Says Admiral Had Part in Winning War.

By the Associated Press.
HONOLULU, T. H., Oct. 27.—Declaration that Great Britain owes a debt of gratitude to the United States for American naval aid in the war, and to the late Rear Admiral Mahan, was made by Admiral Sir John R. Jellicoe, former commander of the British Grand Fleet, in an address before the Allied Civic Clubs of Honolulu.

"We of the United States and Great Britain were brothers and sisters in time of need," he said, "and nobody can think of the naval part of the great war without thinking of the great American Admiral Mahan, who did much to open our eyes to the value of sea power."

"Admiral Mahan had a hand in winning the war and although this is the first time I have set foot on United States territory, I will not be the last to acknowledge Great Britain's debt to America during the war."

ENGINE DERAILED ON APPROACH

Terminal Locomotive and Cars Tear Up Track.

While ascending the east approach of the Merchants Bridge at Madison at 5 a. m. today, locomotive No. 141 of the Terminal Railroad, with a large string of loaded freight cars jumped the track and tore up the rails and ties for some distance before the engineer brought it to a stop on the edge of the embankment. Both the engineer and fireman escaped injury and the damage was repaired in time to clear the incoming and outgoing passenger trains.

Diplomats Robbed on Train.

By the Associated Press.
GENEVA, Oct. 27.—Owing to an increasing number of robberies on the Simplon Express (from the Near East to Paris) and particularly the loss of diplomatic valises alleged to have been stolen while the train was crossing Jugo-Slavia, it is stated here, the train will pass directly from Switzerland to Budapest. Several Americans and Englishmen on official missions, it is declared, have been robbed lately after the train left Bucharest, Rumania.

MOTORMAN DECLARED TO HAVE BEEN CRIMINALLY CARELESS

Verdict Is Reached by Coroner's Jury in Case of Boy's Death After Car Hit Furniture Van.
Thomas F. Colvin of 2646 Rutger street, a motorman on the Fourth street line, was declared by a Coroner's jury today to have been criminally careless when his car struck a furniture van at Lafayette and Mississippi avenues at 7 p. m., causing the fatal injury of Melvin Duckworth, 9 years old, of 1719 Waverly place.

Munich Suffers Without Coal.

By the Associated Press.
BERLIN, Oct. 27.—The coal shortage in Munich has forced the power plants of the Bavarian capital to close, and the city is without light or street car service. Policemen are unable to combat the increasing epidemic of highway robberies and burglaries.

ILLINOISAN HELD AFTER KILLING

Special to the Post-Dispatch.
MOUNT VERNON, Ill., Oct. 27.—James Parker, 50 years old, is dead, and Charles Mayberry, 45 years old, is in jail awaiting the outcome of an inquest into Parker's death.

Mayberry surrendered to the police following the shooting of Parker at the Mayberry home yesterday. Policemen say Mayberry told them he removed with his wife to Mount Vernon from West Frankfort recently because of Parker's alleged attentions to Mrs. Mayberry, and going home found the man with his wife. The shooting followed.

London Paper Points to Coal Strike Call and English Nationalization Campaign.

AMERICAN LABOR CRISIS RESEMBLES THAT IN BRITAIN

LONDON, Oct. 27.—Morning newspapers give a large amount of space to the American labor crisis and parallels are drawn with the present situation across the Atlantic and industrial events in Great Britain since the first of the year.

"The general resemblance is remarkable," says the Chronicle, which suggests some profound underlying rhythm in the causation of labor unrest. We fear President Wilson's illness will make it extremely difficult for him to meet the demands of the situation," the newspaper adds.

The Daily News remarks upon the coincidence of the strike in the American bituminous field, which was announced the same day that British miners began their campaign for nationalization of miners at a meeting at Manchester.

The labor organ, the Herald, says: "The second industrial revolution now is taking place. The first deprived a man of his individuality and made him a part of a machine to manufacture profits; the second is an organized co-operative movement to restore individuality, to insure a man the results of his own labor and of his machine's machine. That is the explanation of the American unrest, and of a similar unrest in our country."

HOW NEEDY STEEL STRIKERS AND FAMILIES WILL BE FED

Union to Provide Food in Two Distributions a Week on Ration Cards.

PITTSBURGH, Oct. 27.—Plans for provisioning needy steel strikers and their families to be put into operation early this week provide for commissaries at strike headquarters in every community where the men are out, with ration cards to families of six or more persons, after investigation by the local union committee.

Two distributions will be made each week, as follows: First half of week—potatoes, 10 pounds; bread, five pounds; tomatoes, one can; corn, one can; peas, one can; navy beans, five pounds; oatmeal, two boxes; bacon, one pound; coffee, one pound; milk, one can; second half of week—same as first half, with these exceptions—dry salt meat instead of bacon; red beans instead of navy beans; syrup, one can; no coffee.

The coupons of the commissary cards will be collected when giving out first half week's supplies and the remainder of the cards taken up when the last half week's supplies are given out. The coupons and stubs will be forwarded to the National Committee as receipts.

AMBASSADOR FROM JAPAN ARRIVES AT SAN FRANCISCO

Will Depart for Washington Tomorrow—Says He Has Strong Belief in American Common Sense.

SAN FRANCISCO, Oct. 27.—Ambassador Kijuro Shidehara, who comes to represent Japan in the United States, arrived yesterday on the Shikoku Maru. He will leave here tomorrow morning for Washington, D. C.

"I am delighted to find myself again in America—a country for which I have always entertained profound sympathy and admiration," Ambassador Shidehara, said in a statement. "I fully realize that Washington is a very important post for the Japanese diplomatic service, and I am all the more sensible of the great responsibilities implied in the mission with which I am now honored."

"At the same time I have a strong belief in the practical common sense of the American people, and, above all, their instinctive love of justice, which has invariably proved in the end to have a controlling influence in all matters of international importance."

DIAMONDS, WATCHES ON CREDIT. Lofis Bros. & Co., 22 floor, 308 N. State.

CATHOLIC CHURCH DEDICATED

Archbishop Conducts Services for Church of Our Lady of Lourdes. Formal dedication services for the Church of Our Lady of Lourdes, Forsythe boulevard and Pennsylvania avenue, were conducted at 9:30 a. m. yesterday by Archbishop Glennon. Twenty-five priests aided in the ceremonies. The Archbishop delivered the dedicatory address after the celebration of solemn high mass.

The church building was begun four years ago. Father J. O'Connor, the priest in charge of the parish, is responsible for its completion. The building is of Norman architecture and is simple in design.

CONFEDERATE VETERAN IS DEAD

John M. Sheppard, 72 Years Old, Served With Mosby's Cavalry. John M. Sheppard, during the Civil War a member of Mosby's Confederate cavalry band, died at 3 p. m. yesterday at his home, 5253 Waterman avenue, at the age of 72 years. He was engaged in the real estate business at 1001 Chestnut street. Sheppard served through the war and came to St. Louis after manufacturing tobacco for a time at Danville, Va., and Milton, N. C. He became a tobacco buyer in St. Louis and continued in that business until 10 years ago. He is survived by his widow and three children.

SALOON OPEN AFTER HOURS WHEN CLOCK IS TURNED BACK

Police Found Place at 1408 N. Grand Avenue Running Full Blast at 12:45 A. M. Sunday.

Policemen attracted by lights and apparent gaiety to the saloon of Noonan & Hamilton, 1408 North Grand avenue, at 12:45 a. m. (old time) Sunday, found four couples seated at tables and 25 men in front of the bar. Martin E. Noonan, one of the proprietors, was in front of the bar, while two bartenders were rushed to fill the orders.

Noonan, questioned as to why he had not closed at midnight, in compliance with the Sunday law, pointed to the clock on the wall. The clock said 11:45.

"I've got 15 minutes yet," he told the policemen. The latter consulted their watches.

"You're 45 minutes ahead of time and should have been closed three-quarters of an hour ago," they told Noonan.

Further explanations developed that someone in the place, unbeknown to Noonan, had turned the clock back to the new time long before the hour set for the change. When this fact was revealed Noonan ordered the crowd into the street, turned out the lights and went home.

Illinois Apple Trees in Blossom.

MARION, Ill., Oct. 27.—P. N. Lewis, a farmer residing near Marion, has two apple trees in full blossom. Neither tree bore fruit this year, but they bloomed twice.

Memorial Park

A Non-Sectarian Burial Park with Perpetual Care.

The Garden Cemetery—

Less than thirty years ago the American idea, the Garden Cemetery or Burial Park—as distinguished from the old graveyard with its crude congestion of grave mounds, quaint and incongruous burial stones, gnarled and ancient trees and overgrown with weeds and shrubbery—was developed.

The most beautiful burial grounds in the world have been the result, contrasting sharply with the congestion of monuments and tombs existing in burial places throughout all the continents of the Old World—so-called "Cities of the Dead" and in all of the older cemeteries of this country.

Coincident with the conception of the Garden Cemetery was developed the Permanent Care and Preservation of the same, and it is only in recent years that land has been sold with provisions for Perpetual Care.

Memorial Park will be a departure from the old graveyard and will be in the true sense of the word a Burial Park, and will remain a beautiful place of public veneration for all time to come.

FAIRLY GOOD OFFERINGS AT MOVIE HOUSES

"When Bear Cat Went Dry" Is
Fine Drama of Feuds and
Moonshine.

For those who like both action and scenery in their moving pictures the program at the Liberty Theater is made to order. It has been quite a while since so good a double bill has been shown here, with both pictures of the broad, expansive outdoor type. In the presentation of which the screen is immeasurably superior to the stage.

"When Bear Cat Went Dry" is a timely epic of the Cumberland Mountains with moonshining and bootlegging as its principal theme. Here are some wonderful mountain pictures and fine characterizations of the feud-fighting "natives." Revenue officers are seen in action and a love story is interwoven in the plot. The other principal offering is Tom Mix in "The Speed Maniac" in which this acrobatic star fully lives up to the picture's title. In addition there are several interesting and amusing short features.

At the Kings, Shenandoah, Grand Florissant and Juniata, and opening at the Lindell today, the leading attraction is a screen version of the famous stage farce "Fair and Warmer." This is a film with many laughs and the movie version gives opportunity for the introduction of many scenes which were left to the imagination of the audience in the play's spoken form.

Jack Pickford in a semi-juvenile comedy entitled "In Wrong," is the main attraction at the New Grand Central. Here the youthful action of the house of Pickford seems at times to encroach on the province of Charlie Ray, with an occasional dash of a sort of masculine "cuteness" which is one of the stand-bys of his talented sister. "In Wrong" can hardly be classed as a thriller, but it has many amusing episodes and the cast is well-balanced.

"Patty" Arbuckle in "The Hayseed" and Marguerite Clark in "Luck in Pawn" are contrasting features on the West End Lyric bill. The Arbuckle comedy is the big star's latest offering. It portrays this mammoth of the funny film in the role of a farmer, in which capacity he does many things not recommended in the bulletins of the Department of Agriculture. Miss Clark is as cute as ever and puts over her personality in a rather light comedy. There are several good short features on the program.

At the Pershing the attraction is an All-Fox program, including William Farnum in "The Last of the Duanees."

"Broken Blossoms" opened for a week's run at the Royal yesterday, and "Back to God's Country" went on at the Central.

**JAPANESE WHO KILLED HIS
FAMILY GETS 90 DAYS IN JAIL**
Wins Court's Sympathy by Explaining He Loved Them So He Sought Way Out of Poverty.

Correspondence of the Post-Dispatch.
TOKIO, Oct. 6.—Thinking that it was better to kill his family than to see them starve, Ichiro Watanabe, a drug clerk, murdered his wife and four infant children. The Court evidently agrees with him to a certain extent, for, after sentencing him to 90 days behind the bars, it is considering his appeal on the ground that the sentence is too heavy.

His tale, which moved the Judge to tears and brought him the sympathetic support of the Public Prosecutor, is that he killed his family to rescue them from the poverty in which his monthly salary of 40 yen (\$20) compelled them to live—the compelling motive for the wholesale murder being the love he bore his children and their mother.

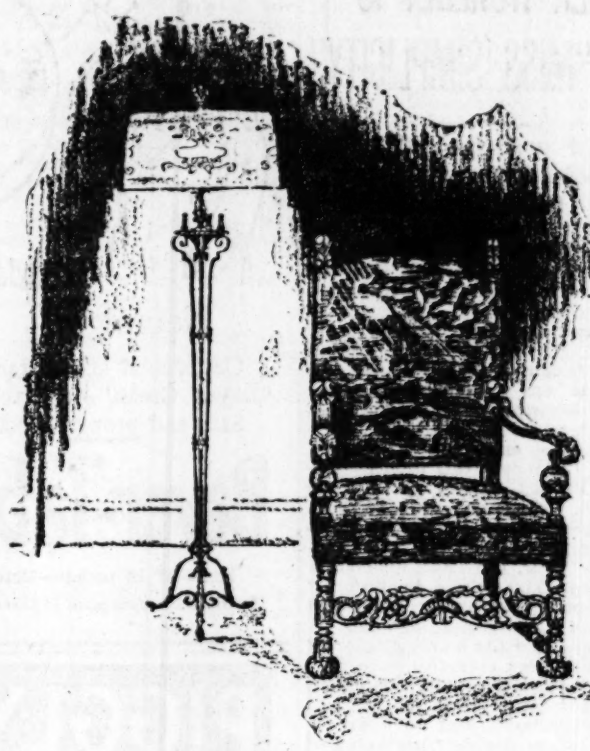

He said that after he had strangled his 2 and 6 year old children, he explained to the younger children that he and their mother were about to kill themselves, after which a rich man would find and care for them. Hearing this, the elder of the two, a boy of 4, begged to be allowed to die with his parents. This wish was gratified and the baby was also killed. The children being dead, the wife was willing to submit to strangulation, after which the defendant proceeded to hang himself. He was discovered and cut down.

THE COVENANT of the "League of Love" was ratified at the city hospital today, when the 20th anniversary of the League was celebrated.

**EMPLOYEE STABBED 12 TIMES
IN QUARREL AT CITY HOSPITAL**

Man Is in Critical Condition, Following Fight Said to Have Started With Remark About Woman.
James Burns, 25 years old, a stretcher bearer at the city hospital, was stabbed 12 times and probably fatally wounded in a quarrel with George Brown, 20, a telephone operator at the hospital, in the receiving room at the hospital yesterday morning. Brown escaped, but was arrested later at the home of a relative at 2150 Lafayette avenue.

Burns was reported in a critical condition today, three of the wounds having penetrated vital organs. According to the story told policemen by Burns, Brown made insulting remarks about Miss Margaret Buckley, a former employee of the hospital. Burns resented the remarks and when Brown repeated them struck Brown in the face. The latter drew a knife, policemen were told, and cut Burns before other attendants and convalescents could interfere.

Wrought Iron Lamps With Parchment Shades

There is something so substantial and serviceable about the combination of the new iron Lamp Standard topped with a rich parchment shade, it has taken instant hold on the fancy of those whose living room is truly what its name implies.

The variety of finish displayed in Wrought Iron Lamps is a tribute to their designers and an assurance of individuality in your selection.

And the Parchment Shades travel all the way from the dignified richness of color and light you see in a stained-glass lighted cathedral to "elves of hills, brooks, standing lakes and groves" dancing, black against the moonlight.

While Silk Shades are often exquisitely beautiful—Parchment Shades are more, they are both beautiful and interesting.

To be interesting to the discriminating, the Lamp Shades must be individual, and so you will find them here, no two alike of the better ones.

UNITED STATES RAILROAD ADMINISTRATION

RATHER WORLDLY IS "MISS SIMPLICITY"

Musical Play Begins With Sophisticated Episode in Unsavory Cafe at Tunis.

By RICHARD L. STOKES.
"Little Simplicity," a three-act play with music which opened a week's engagement last night at the Shubert-Jefferson Theater, Rida Johnson Young has again resorted to the formula which made her "Maytime" one of the fragrant memories of last winter. There has been an effort to construct a story which would be not only coherent but romantic; the music, this time by Augustus Barratt instead of Sigmund Romberg, sincerely aims at both tunefulness and descriptive orchestral effects; and the choice of settings, in Tunis, the Latin quarter in Paris and "somewhere in France," offered opportunities for contrasted beauty of scenery and costumes.

Yet somehow the magic glamour of the earlier work seems to have vanished. No doubt a more competent cast would demonstrate the work to better advantage. But an unsavory taste is left at the very beginning of the action by the presentation of a cafe proprietor in Tunis, who piles the ancient craft of Sir Pandarus of Troy by procuring French girls for a dusky and brutish Arabian sheik. Then, too, the element of suspense is lacking, for the curtain has not been up 10 minutes before everyone knows how the story will end two hours hence.

Piquant with barbaric atmosphere is the music for the African scene, and some of the melodies were well enough liked to be encored, such as the trio for male voices, "First Love," and the duet, "It's Worth While Waiting." But there were considerable areas during which the muse of the composer seemed to have nodded. As for the settings, the scene painter must have aimed at verisimilitude rather than loveliness; at any rate, it is a shabby Tunis and a cheap Latin Quarter that are portrayed.

From Africa to the Latin Quarter. At the beginning we are in a cafe at Tunis, and meet its rascally proprietor, Clavelin, his niece, Lulu, who contrives on the one hand to prey upon the purses of the guests and on the other to act as a demon chaperon for the little flower girl, Veronique, known as "Miss Simplicity," a quondam student, including Alan Van Cleave, a rich young American, who are in the charge of Prof. Erasmus Duckworth of Troy, N. Y.; the amorous sheik of Kudah, several French officers and many French and native girls. Clavelin arranges a meeting between the sheik and Veronique, but Lulu rescues the girl, slaps the noble Arab's face, and is turned into the street, with "Little Simplicity," by her avaricious uncle.

The students decide that the best way to elude the qualities which have won Veronique's nickname is to take her to the Latin Quarter, and there, in the second scene, we find her installed with the vigilant Lulu. Love has arisen between Veronique and Alan, and Lulu is beginning to look with kindness upon the professor, who has shown a tendency, under the influence of champagne and female society, to "become human" by forgetting his books. A pretty stroke is that of bringing the students of the quarter, on the way to a ball, to parade their fancy costumes before Veronique in honor of her birthday. Owing to a misunderstanding, Lulu decides that Alan is trifling with her charge's heart, and disappears with her.

Five years have elapsed when the curtain rises on the last scene, and the world war is in its third year. The setting is that of a Knights of Columbus hut behind the lines, in charge of Prof. Duckworth. It is learned that during the intervening years he and Alan have sought in vain, all over the world, for the two girls. But today the famous musical comedy star, "Mile. Delmar," is coming to sing for the soldiers. She is, of course, the former Veronique, and after long-drawn-out hesitations, the pair of lovers find a happy ending. It is perhaps comprehensible that an artilleryman in this scene should talk of "going over the top," but one is puzzled to discover how American soldiers could have won three service chevrons as early as 1917.

The principal roles are taken by Marjorie Gieson as Lulu, Emmie Niclas as Veronique, Edmund Fitzpatrick as Alan, Harry Pender, formerly of the Park Musical Stock Company here, as Jack Sylvester, a mischievous American student, and Phil Ryley as the professor, who carries the work's entire burden of comedy. Madge and Ethel Warde have several duet dances. There is little to remark upon the singing and acting as a whole, and the chorus of some 16 scarcely justifies the rhapsodies of the advance notices.

Nell O'Brien's Minstrels Open at American Theater.

Nell O'Brien's Minstrels, practically the only aggregation of its kind now on major circuit, opened for the week at the American Theater last night. One of this year's prime attractions is Bert Swor, long favorably known to vaudeville as a monologist and now seemingly very much at home in the minstrel olio.

There are two parts and four scenes, one of which is proclaimed to be a reproduction of the Hall of Mirrors, where the peace treaty was signed. It is the setting for a new travesty sketch called "The League of Explanations." There is the usual quota of good dancing and bull singing, interspersed with jokes that have stood the test of time.

Potatoes in Spain \$1.05 a bushel. By the Associated Press. MADRID, Oct. 27.—The Spanish Government has fixed the price of potatoes at 29 pesetas a hundred kilograms (at normal exchange \$1.05 a bushel). There is a great shortage of potatoes in this country.

The Animals Know!

Yes, the deer know! They go to "deer licks" to lick up the salt.

And we humans should know that "salt" is Nature's own remedy. Salinos is just a wonderful "salt."

Because we enjoy eating, we put all sorts of unmixable foods into our stomachs. Harmful chemical actions then follow and poisons form which produce, among many bad feelings, headaches and "heart-burns" and constipation; or the poisons may damage important organs of the body—sometimes the kidney or liver. We become "bilious" and "yellow complexioned" or "nervous" and "fagged." Then we can't work with zest. We lose courage. In this state of body one of many serious diseases is likely to develop. Now—

SALINOS

corrects food mistakes. Salinos prevents many sicknesses—many diseases. Yet Salinos is simply four salts, all well known to the medical profession, put together in such a scientific way that Salinos is really the "pleasant laxative salts"—painless—safe and reliable.

Thousands of physicians prescribe Salinos. No home medicine-chest should for a day be without it. Four druggists out of five in your city have it. Ask yours to send you a 50c bottle (the sizes are 25c—50c and \$1.00). Keep it on hand! When you see how wonderful it is—you'll unhesitatingly recommend it to others.

LEO SHAFIRO COMPANY - MINNEAPOLIS, U. S. A.

The POST-DISPATCH is the only St. Louis evening newspaper giving Associated Press news service.

There you are!

Somebody's going to have good eats.

You bet. I know the homes where they have good eats—they always get this flour. Can't make 'em take any other.

Guess I ought to know. I deliver groceries lots of times when they're baking bread or cake.

My, how good it all smells when they open the kitchen door. There is a good reason why good cooks use

Valier's Enterprise Flour

—they get better results with it. A good cook needs good flour to show how really good a cook she is.

Valier's Enterprise Flour is so much better than ordinary flour, because it is milled from the choicest of selected hard winter wheat. We pay a premium to get the best. Valier's Enterprise Flour may cost a little more than ordinary flour in the sack, but in the long run it really costs less, because you get more loaves to the sack, and the quality of the baking is so much better.

Try a sack of Valier's Enterprise Flour today, and prove your real baking ability. Phone your grocer—he has it.

"Community"

is Valier's high-grade popular priced flour. It has made hosts of friends.

W. W. COR. EIGHTH AND

POINDEXTER WANTS G. O. P. NOMINATION

Washington Senator, First Publicly Announced Presidential Candidate, Outlines Platform.

By the Associated Press.
WASHINGTON, Oct. 27.—Senator Miles Poin Dexter of Washington, in a statement to the people of the United States, announces his candidacy for the Republican nomination for President and presented a platform of policies and principles which he will advocate in his campaign.

The Washington Senator, in his statement of policy, announces threats of labor leaders to tie up the railroads as "government by terror," for a special class, and declares that the Government must be made supreme to both capital and labor, though insisting that the just claims of labor should be recognized.

Communism, Senator Poin Dexter declared, is inconsistent with the vested rights of the laborer to his wages. Treating of international matters, the platform remarks that the "process of making a 'supreme sacrifice' of America and of 'joining our fortunes with the fortunes of men everywhere should be stopped.'"

In making his statement of principles, Senator Poin Dexter, who is the first publicly announced candidate for the Republican nomination, asserted that his announcement of policy makes it necessary for the Republican national convention in 1920 to stand by his platform should he be chosen by the party.

SHEA SAYS RAIL MEN WILL NOT OBSERVE AN ANTI-STRIKE LAW

Brotherhood President Declares Proposed Legislation Is Almost Certain to Cause Revolution.

WASHINGTON, Oct. 27.—Timothy Shea gave notice to Congress last night that the Brotherhood of Locomotive Firemen and Engineers, of which he is acting president, will not observe pending anti-strike legislation if enacted into law.

"Such an attempt to single out railroad employees and deprive them of what he termed the economic right of workers to strike to prevent injustice, must not be accepted," he said, "in connection with other information which the railroad brotherhoods have as a foregone conclusion that the railroads contemplate a general reduction in wages when the Government surrenders control, and desire such a measure to forestall a strike."

"If these interests or the legislators believe employees will unhesitatingly submit to any such invasion of their rights as citizens," Shea continued, "they had better expect that thought from their minds, because I believe I speak for locomotive firemen and hostlers at least, when I say that any law which deprives them of the rights of American citizenship would not be observed."

Shea said such a law is almost certain to precipitate a revolution, and, in fact, just what extreme radicals and revolutionary agitators desire.

"This would give them logical argument for direct action," he asserted.

Railroad men are waiting the outcome of the Government's campaign against high prices, Shea said, adding that if the high cost of living is not reduced, then they expect sufficient advance in wages to enable them to maintain their standard of living. He declared firemen were running in debt from \$5 to \$50 a month because their wage increases have not kept pace with mounting prices.

"Locomotive firemen cannot physically endure the hours they have been required to work," he continued, "and which they have temporarily acquiesced in because of the war emergency. They have decided that after nearly four years of patient waiting on their part this issue cannot be longer postponed."

LABOR WANTS C. OF C. MEMBERS TO VOTE ON STEEL STRIKE ISSUE

Central Trades Body Seeks Referendum on Director's Approval

Central Trades and Labor Union yesterday, at its bi-monthly meeting, adopted a resolution requesting members of labor unions who are members of the Chamber of Commerce to demand a referendum vote of the Chamber to determine if the sentiment of the membership was expressed by the Executive Board of the Chamber when it recently approved the attitude of Judge Gary in respect to meeting union representatives of the steel workers.

The resolution precipitated a lengthy debate on the attitude of the Executive Board of the Chamber of Commerce in taking sides in the steel workers' dispute, and the resolution, which was offered by the Legislative Committee, was approved as expressing the displeasure of organized labor.

A motion was approved to invite Glen E. Plumb, originator of the "Plumb Plan" for nationalization of railroads, to speak before the Central Trades body when he visits St. Louis Nov. 9.

The delegates will report to their respective local unions that Nov. 1

Coupon No. 78.

In Case of a Tie for Any Prize Each Person in the Tie Will be Given Full Value of the Prize to Which He or She is Entitled

We believe that everyone who knows all about our new product will want to try it. We know that everyone who tries it will like it.

Everyone may try for these prizes. All you have to do is send us a simple suggestion that will help us describe this new product so others will know something of its goodness—any idea that may occur to you—a recipe—a slogan—a new use for it, may win one of these prizes.

Made by a New, Exclusive Process

The Nut Margarine industry is new in the United States and, until our discovery, Nut Margarine was made by the same process used in making Oleomargarine (from Animal Fats). Because the results of using the Oleomargarine process to make nut butter were so unpalatable, we decided it was not good enough for us and set about developing a new process. We were successful. We called our new discovery the Ashby Process.

No Preservatives

GOODY is made from such pure ingredients by such a skillful, cleanly process that it does not need to be preserved. The only purpose of a preservative in nut margarine is to cover up the carelessness or the ignorance of the manufacturer.

No Animal Fats

GOODY contains nothing but the white meat of the Coconut, Peanut Oil, Pasteurized Milk and Butter Salt. Can you imagine a more appetizing food?

Here's How You Can Enter the "GOODY" Idea Contest

Simply fill out the coupon and mail it to us. Then you are entered in the "GOODY" Idea Contest and can send us your ideas at any time before the close of the Contest, which will be December 15, 1919. But to insure having your name enrolled, please fill out the coupon and mail it today. When you do send your ideas, don't worry about the form or style—simply jot them down on paper and sign your name and address.

The Sugar Question

We Submit the Following to the U. S. Department of Agriculture:

Press dispatches announce that the U. S. Department of Agriculture holds "Saccharin is a harmful drug, the use of which is deleterious to health."

If the Government will seize a Food Product sweetened with Saccharin, shipped in Interstate Commerce, the quality of which comes within the provision of the Pure Food Law, and makes the seizure because it is sweetened with Saccharin, and will immediately prosecute the shipper, we will donate \$1,000.00 to any charitable institution the Chamber of Commerce may direct.

We have been urging the officials of the Government for over seven years to bring a case in court to test the question, but they dodge the issue.

Dr. Alsberg announces *his* department has no control over statements by us in advertisements. He omits to say, however, that there is a federal law by which advertisers who make misstatements can be reached.

The only harm Saccharin has ever done has been to the Sugar interests.

Don't be misled by news sent out from Washington that Saccharin is harmful. The greatest body of Scientists ever brought together in this country on a single question, and appointed by the United States Government, has, after full and thorough investigation, reported favorably on Saccharin. The investigations made for other Governments proved the same conclusion. The Department of Agriculture announces that no scientific evidence has been adduced *since* the promulgation of its regulation prohibiting the use of Saccharin. It carefully avoids referring to the report of the Referee Board's report on its investigation *prior* to the promulgation of the regulation.

Saccharin is absolutely harmless according to Scientists' investigations. It has been used for thirty-five years with no single case of record of its having done any harm. All Europe and the Far East are using Saccharin in a large way. Are the Governments of these countries less careful of the health of their people than the Government of this country? We do not think so.

If our Government permits the use of Saccharin in foods intended for invalids and therefore not considered harmful to them, it would be interesting to know why the officials of the Department of Agriculture think it harmful to persons in normal health.

Don't be afraid to use Saccharin. Now is the time to use it as a sweetener.

Get it from your Grocer and after having started its use in the household, you will most likely always use it.

Hungary to Give Food for Bela Kun.
VIENNA, Oct. 27.—Newspapers state that Hungary is willing to assist Austria in its present food and economic crisis with supplies of foodstuffs and raw materials. Hungary requires in return, however, as its price, it is stated, the extradition of Bela Kun and his associates in the late communist Government of Hungary, who took refuge in Austria territory.

Special to the Post-Dispatch.
BENTON, Ill., Oct. 27.—At the Coroner's inquest Saturday night in the case of Cantrell Smith, the jury returned a verdict that he came to his death from a gunshot wound, inflicted at the hands of Frank Phillips, teacher of the seventh grade at the Lincoln School, and recommended that Phillips be held in jail without bond, to await the action of the grand jury.

Phillips, who is held in jail at Marion, was not present at the inquest. Evidence showed that students had raised money with which to buy Phillips and his wife wedding presents and they told Phillips they would visit him Thursday night and Phillips said, according to the testimony, he would "plug them" if they did. When the crowd assembled at the Phillips home he appeared and threatened them if they entered the house, it was alleged. He raised a window and was told that the students called only for a social time, whereupon two shots were fired. The crowd dispersed. Young Smith rode his bicycle home and several minutes later it was discovered a bullet had penetrated his stomach and he was sent to the Zeigler Hospital where an operation was performed.

JURY HOLDS TEACHER FOR DEATH OF BOY SHOT DURING CHAUVINARI
Coroner's Verdict Instructs That the Accused Be Held in Jail Without Bond.

After the shooting she became hysterical and was taken to the home of her parents in Hamilton County. The funeral of the Smith boy was held yesterday. He was a son of Attorney and Mrs. Robert E. Smith and was a student in the sixth grade, and was a student in the sixth grade, of which Mrs. Phillips was teacher.

WORLD FEDERATION OF TRADE UNIONS MEETS AT WASHINGTON
Session Is Preliminary to Opening of International Labor Conference Wednesday.

WASHINGTON, Oct. 27.—Labor leaders of many nations, practically all of them accredited delegates to the Industrial Labor Conference, which will convene Wednesday, were gathered here today when the International Federation of Trade Unions opened its first conference since its organization at Amsterdam last July out of the ruins of the old "International."

Delegates from both Germany and Austria were among those expected to attend the conference, the Supreme Council having approved their coming, following a protest by the Amsterdam conference against their exclusion. Whether or not these delegates will participate in the official conference, however, depends upon the vote of the accredited delegates to the conference. Labor leaders said they expected the German and Austrian delegates would be invited to participate.

Leon Jouhaux, general secretary of the French General Federation of Labor, was expected to be chosen presiding officer of the federation conference.

FOUR MORE HELD IN MURDER OF ABSCONDING BANK MESSENGER
New York Detectives Predict Return This Week of \$178,000 Bonds Stolen.

NEW YORK, Oct. 27.—Four more arrests were made yesterday in the police search extending over New York, Chicago and Connecticut for the murder and robbery gang that killed, on Aug. 19, near Milford, Conn., Benjamin H. Binkowitz, the young bank messenger who absconded with \$178,000 worth of Liberty Bonds.

One of those arrested is a woman, who is held in Bridgeport as a material witness. Nine persons are now held by the police in connection with the killing and robbery of the young messenger. An East Side Italian, who, the police say, was the leader of the band of four Italian gunmen and stiletto wielders whom the conspirators summoned to make an end to the messenger, is now sought.

Detectives who are handling the case in New York said last night that they were confident of restoring the whole of the stolen bonds to their owners before the end of this week.

WIDOW STRUCK BY AUTO DIES
Woman Was Injured While Crossing Street Under Umbrella.

Mrs. Dora Wiese, 52 years old, a widow, of 1821 North Sarah street, died at the city hospital at noon yesterday from injuries suffered at 10:30 p. m. Saturday when struck by an automobile at Lucky and Sarah streets, while crossing Lucky street beneath an umbrella. The driver of the machine sped away after the accident and disappeared, turning north into Bellemeade avenue.

The death brought the motor vehicle fatalities since Jan. 1 to 76, as compared with 71 for the same period last year.

Folkmen made four arrests, but none of those taken into custody were identified and all probably will be released today.

Miss Gertrude Wessels, 38, of 1415 North Thirtieth street, was struck by an automobile driven by John Esser Jr. of 6641 Alabama avenue, at Ninth and Pine streets, at 5 p. m. yesterday. She was internally injured, cut and bruised.

THE BEST MARKET IN WHICH to buy or sell anything is in the "Want" Ad columns. Try it and be convinced.

BLACKSMITHS' OFFICIALS MEET
Union Heads Come Here to Interpret Recent Wage Agreement.

The general chairman and vice presidents of the International Brotherhood of Blacksmiths, Dropforgers and Helpers met in convention here today, to continue tomorrow and Wednesday at Fraternal Hall, Eleven street and Franklin avenue. Affairs of general interest to the brotherhood will be discussed. The agreement of the American Federation of Labor with the Railroad Administration as affecting the blacksmiths, will be given an interpretation which will apply to the trade throughout the country. J. W. Klein of Chicago, International president of the organization, presides.

EXPEDITES INJUNCTION SUIT
Judge Dyer, in the United States District Court today, issued an order directing that the transcript of proceedings in the suit of the Becker Milling Co. of Red Bud, Ill., be furnished to the stenographer of Judge Shields' division of the Circuit Court by tomorrow morning. This action was taken at the instance of Randolph Laughlin, attorney representing the United States Grain Corporation, who complained of the delay in getting the transcript.

The Grain Corporation recently revoked the Becker company's license to do business, and the company filed an injunction suit in the Circuit Court, which Judge Shields ordered removed to the Federal Court.

POLITICAL ADVERTISEMENT
NOTICE TO VOTERS
Notice is hereby given that pursuant to a resolution adopted by the Board of Education of the City of St. Louis at an adjourned meeting of said Board held on Thursday, the 11th day of September, 1919, a special election was ordered to be held and will be held in the school district which is constituted by the City of St. Louis, on Tuesday, the 11th day of November, 1919, which said special election shall be held at the usual places for holding elections for members of the Board of Education of the City of St. Louis, under the general election laws governing elections in said city, at which said special election there shall be submitted to the voters of said school district who are taxpayers in said school district the following proposition:

"Shall the rate of taxation for school purposes be increased for the next ensuing year in the school district comprising the City of St. Louis, State of Missouri, from sixty cents on the one hundred dollars valuation of property to seventy-five cents on such one hundred dollars valuation?"

Notice is further given that the following have been designated as polling places at which said special election shall be held:

Princeton Says the Clock Wasn't the Only Thing That Got a Set-Back, Saturday

Drake Likely to Give the Pikers a Stiff Struggle

Bulldog's Showing Against Tigers Causes Concern in Washington Camp.

TO START SECRET DRILL

Rutherford to Take Squad to County for Instruction in Important Plays.

With the one-time lowly Drake University Bulldogs showing unprecedented form by holding the man-eating Bengals of Columbia, Missouri to a 3-0 score, Coach Dick Rutherford has decided that he must start pointing the Washington University eleven toward the Drake contest without delay. The Pikers will journey to Des Moines to meet the Iowans on Nov. 8.

Tomorrow afternoon the Pikevemen will inaugurate their secret practice season, which will last until the Missouri game. Every day at 4 p. m. the squad will be taken to some secluded spot in St. Louis County and there it will be taught the formations which will be used against Drake and Missouri.

The power of the Drake team, inferred from Saturday's score, comes as a surprise to Rutherford. The local directorate had been satisfied that the Pikers would be taking things rather easy against Drake on the same day that Missouri was mixing with Nebraska. The plan had been to let Drake slip into the general scheme of things without any special preparation.

Piker Scout Reports.

Gordon Beck, assistant coach, returned yesterday from Columbia where he attended the Drake-Tiger battle, and battle he announces was, Missouri had a better attacking force, gaining double the ground of the visitors, but there was not one time that Drake's men were able to push their offensive past the 20-yard line. However, Beck brings back the information that Missouri has a powerful defense and smashed 75 per cent of the Iowans' plays before they were started.

Drake has a massive line. The forwards will average almost 100 pounds, greatly outweighing the local line. They also have a superb punter who is able to put the ball far into enemy territory at any time. Beck says that Drake looks better this year than he has ever seen it before.

Jack Grover, Washington '08, who refereed Saturday's game, was not much impressed with the way the Pikers looked against Grinnell. Technical Jack was impressed with the way Missouri played against Ames the preceding week, and made the following statement: "If Washington plays as it did yesterday and Missouri shows as it did against Ames, I predict a set and trimming for the Pikers."

Missouri has a charging line and Washington has a stationary line. Missouri's ends are alive, fast and active; Washington's are slow and stationary. Just for these reasons, this team of yours is going to get a bad beating unless the change will be made; because the material is unusually good and Dick Rutherford knows a great deal of football.

Cause of Many Gains.
The lack of a charging line was the direct reason for the frequent Grinnell gains. This shift play of Tollefson's is a crackerjack and was so arranged that three men were put on the man against whom the play was directed. Now it would have been possible to play the shift and the linemen charged and broke the line before it was started. But the Washington forwards remained solid and tried to push the play back. No man can push back three opponents, and hence the gains were made.

Coach Tollefson of Grinnell seemed to think that Washington had a stronger defense than Ames, whom the Grinnellians met earlier, but that the attacking force of the two elevens was about the same. Tollefson particularly complimented Conselman, stating that he had been a great quarterback he had recently been in the conference.

As a matter of fact, the Pikevemen players were stricken at Ames' report Saturday. Before the game he reported ill to the coach and took a rest of about a half hour before getting into his grid. Evidently the rest served its purpose.

Rutherford Satisfied.
Rutherford was satisfied with the efforts of the team, according to his statement to the Post-Dispatch. He says there is no position which requires particular attention and he has not decided upon any lineup changes. He did volunteer the information that Pemberton would receive a thorough trial at end the coming week. Pemberton has not been placed on a wing before this because of his inability to give onto forward passes. However, this does not seem to be any great deficiency, inasmuch as most of the passes have been directed to the halfbacks. Pemberton is a sure tackler and showed his defensive merit Saturday. He is fast as a flash. He looks like the most dependable piece of material on the team.

The players were rather glum after the game and attributed their inability to show more against Grinnell to sluggishness. They think that the Aggie game was a trifle too much coming as the first real contest and that they have failed to strike their stride since then. One of the players said that all of the men knew when they entered the game that they were not going to put up any brilliant exhibition.

Babe Ruth is the first hold-out of the coming season. Babe announces his retirement from the game on account of incompatibility of his marmosa or something.

Washington's "Weak" Line Held for Downs 4 Times

Whenever Enemy Came Within Scoring Zone, Pikers Were Able to Halt the Enemy's Advance—Triple Penalty in First Gave Visitors Their Only Real Chance.

By John E. Wray.

IT was the game bird that wins. From which premise we draw the conclusion that Washington University football gladiators ought to nose out their Valley conference rivals in the current scramble for a place in the sun. They won the badge of courage Saturday under circumstances that call for especial mention.

The score was 6-0 for Washington in the first quarter. The Grinnellians were spurring through the Washington line whenever and wherever the Minnesota shift was concentrated. In five plays the visitors had driven a wedge 40 yards deep into the Pike defenses and had brought the ball to the 20-yard line of the home cohorts—the most difficult 20 yards on the football field, as every quarterback who has punished his puzzled wife over the problem will tell you. But 17½ of these were made easy in a manner most disheartening to the Pikers.

Washington, basking up on its secondary defense, had begun to nail the Grinnellians for forward passes. The 29-yard mark was reached. There was every probability that the momentum of the plunging red-and-black backs would be slowed to walk inside the next four downs.

Worse and More of It.
And then, Bo, came the thunder-clap. The next play Washington stopped the man, but was offside. This meant a loss of five yards for the Pikers. The ball was now only 15 yards from the Washington goal.

Boit No. 2 landed when it was announced that, in addition, a 10 yards penalty had been assessed against the Pikers when one of their number had roughed a Grinnell man. This brought the visiting machine within five yards of Washington's line.

The blow was so stunning that, as the official was pacing off the distance, the Washington captain inquired as to the reason for the setback.

"Half the distance to the goal for talking back," snapped the offended official, and he stepped off an additional two and one-half yards, bringing the ball to Washington's 2½-yard line. First down for the enemy. The Washington captain made that infinitesimal distance!

Three penalties on one play! That's about the record for football intolerance, we take it. It would not have been surprising to see the Washington mercury go down. But it didn't. The story of yesterday's play records how they held tight and took the ball away from the enemy—a classic, in courage and resolution.

Does This Seem Weak?
This was not the only instance in which the Pikers showed a stiff back. On four occasions during the game, whenever the opposition threatened in danger of getting up a touchdown momentum, the Pikers put the brakes on the Grinnell machine and held for downs. Besides the off-

ONE tremendous jolt to form marred Saturday's football dope and spoiled an almost perfect day. The defeat of the ponderous Syracuse team, which clipped the mighty Panthers' claws only the week before, fell before the Washington and Jefferson eleven—a machine first made famous by the coaching of Sol Metzger. W. and J., on its first year, did not figure to have much chance to beat anything but a rug.

It had played well against several minor games, but its record was better than those of other teams did not entitle it to serious ranking with the major elevens of the country.

But it not only stopped the orange-tinted Syracuse machine, but it also held two touchdowns in the final quarter on long runs.

Just where any Eastern team stands in line ranking is now a matter of very mixed conjecture. Princeton, beaten by Colgate, is definitely out of the running as a leading eleven. Yale has had its setback at the hands of a second or third rank team. Army, Syracuse, Cornell, Pittsburg, Penn State and others of national prominence have been humbled.

Penn Has Good Eleven.
ON the form available so far the big elevens of the East might be ranked roughly in something like the following order:

Team	W.	L.	T.
Washington	2	0	0
W. and J.	2	0	0
Harvard	2	0	0
Colgate	2	0	0
Syracuse	2	0	0
Pittsburg	2	0	0
Army	2	0	0
Dartmouth	2	0	0
Yale	2	0	0

How these teams will appear Thanksgiving day is another conjecture. Doubtless all of the Big Three will develop into dangerous opponents for any seven by Thanksgiving day. If Pennsylvania does not go stale it gives promise of duplicating the Syracuse victory over Pitt and of emerging from the season with a clean schedule.

Washington Now Leads.
THE Pikers are now leading the Valley Conference championship race. The table of team accomplishments this season in games won, lost and tied follows:

Team	W.	L.	T.
Washington	2	0	0
W. and J.	2	0	0
Harvard	2	0	0
Colgate	2	0	0
Syracuse	2	0	0
Pittsburg	2	0	0
Army	2	0	0
Dartmouth	2	0	0
Yale	2	0	0

Kentucky vs. Vanderbilt.

VALPARAISO NOT FEARED

Blue and White Showed Fierce Attack While Fresh in Game With Miners.

St. Louis University's football squad today will settle down to the task of removing the handicap which prevented the Billikens from running up a top-heavy score at the expense of the Rolla Miners last Saturday afternoon. Had it not been for lack of condition, aggravated by the warm day and slippery field, the blue and white undoubtedly would have more than doubled the 21-0-0 total.

While the locals were fresh, they punctured the Rolla line and skirted the ends with precision. Before the game had reached the half-way mark the blue and white had scored three touchdowns and the Miners' lack of wind and stamina had the Billikens on not better than even terms with the Miners. Fifteen of the 21 points were piled up in the first period.

On the defense the Billikens showed surprising strength. Only twice in the afternoon was the Rolla backfield able to make first down, and on one of these occasions they were aided by a penalty imposed on the blue and white. The Miners' plungers seldom made so much as a yard, and usually the Billikens hurled them back for losses, forcing the visitors to punt.

Team Badly Crippled.

Another factor that handicapped the Billikens Saturday was the loss of Koltie, Gallagher, Connor, Baker and O'Donnell started the fray with bruises which kept them from putting up their best running. Rademacher said he had never seen a more crippled team into a football game.

The squad was satisfied with the showing of its squad. So smoothly did the pigmy backfield run through the line, and such skill was shown in the field that the Grinnellians were left in a state of confusion. The hopes of the blue and white were given a substantial boost.

Donovan's work at right half was remarkable. The 142-pounder was in the fight up to his neck, on the offensive, and he showed himself a great ability in smashing the line working smoothly with the linemen and seldom failing to advance from five to 10 yards.

Easy Game Saturday.

Next Saturday's game should be little more than a practice workout for the Billikens. Although the Valparaiso (Ind.) team scored a 23-0-0 victory over the Great Lakes eleven, it is not regarded as all that dangerous. With all of their war-time collegiate stars missing, the Great Lakes machine is not formidable.

Followers of the St. Louis U. team were surprised Saturday by the failure of the Billikens to use the forward pass to any extent. Rademacher said the condition of the field which was soggy and slippery in spots, made it dangerous to use the aerial attack.

H. RATICAN STARS FOR ROBINS DRY DOCK TEAM

Harry Ratican, the St. Louis boy, formerly with Bethlehem, who this year is playing with Robins Dry Dock, proved the star in his first appearance with his new team yesterday when Robins defeated Erie in a National League game in New York.

For his part in the tournament he was awarded a purse of \$2500, the salary of \$10000 some time ago, which will bring it up to about \$10,000. His share of the tour receipts, it is estimated, will be at least \$15,000.

CORNELL AND HARVARD WILL RESUME ROWING WITH DUAL MEET IN MAY

Negotiations are pending between Cornell and Harvard for a dual crew race on Lake Cayuga May 22. This meeting will mark a resumption of the Cornell-Harvard dual regatta, which were introduced for the first time in 1902, when the rival crews held every succeeding year.

The 1919 dope did not expect the intercollegiate sport. The last race was on May 20, 1916, the 11 dual contests, Cornell eight, Harvard seven.

Cornell's crews should be representative of Cornell's greatest days on the water, if the number of candidates may be taken as a criterion. More than 250 men have reported to Coach Courtney, Cornell's "Grand Old Man" and the dean of rowing in the country, who after a severe illness, active charge of crew practices during the absence of John Collier, who now holds a prominent position in the Sparrow Point shipyard. Several veterans are among the men who have reported for practice.

RAIN FORCES SOCCER TEAMS TO REMAIN IDLE

The heavy rains of yesterday caused the postponement of the St. Louis Soccer League doubleheader at Cardinal Field. The opening battles of the Municipal League in the various public parks also were called off. With several more elevens expected in the Municipal League, it is expected that a slight change will be made in the schedule for next week.

In the St. Louis League there will be changes in the makeup of three of the elevens. Bill Brannigan will appear at center forward for the Millers; Jimmy McCaffery for the Indians; and Sheehan and Dike Brannigan will play with the Scullins.

PARTICULAR POLICE SEEKING QUICK SOLUTIONS for immediate needs are readers and subscribers of ads in the "Want" columns. They are waiting for your offer.

Lack of Stamina Big Handicap in Billikens' Camp

St. Louis U. Squad to Devote Week to Improving Wind and Staying Powers.

VALPARAISO NOT FEARED

St. Louis University's football squad today will settle down to the task of removing the handicap which prevented the Billikens from running up a top-heavy score at the expense of the Rolla Miners last Saturday afternoon.

Had it not been for lack of condition, aggravated by the warm day and slippery field, the blue and white undoubtedly would have more than doubled the 21-0-0 total.

While the locals were fresh, they punctured the Rolla line and skirted the ends with precision. Before the game had reached the half-way mark the blue and white had scored three touchdowns and the Miners' lack of wind and stamina had the Billikens on not better than even terms with the Miners.

Barnes With 150 Score Is Winner In Special Match

Sunset Hill Golf Club Professional Defeats Hagen and Ross by Eight Strokes.

ST. LOUISAN IS CHAMPION

DETROIT, Mich., Oct. 27.—True autumn weather and brisk winds failed to effect the sterling golf of James M. Barnes, Sunset Hill professional, here yesterday over the Detroit Golf Club links and the Western champion defeated Walter Hagen, Oakland Hills, and Alex Ross, the home "pro," eight strokes in a 36-hole medal match.

The Sunset Hill professional turned in a total score of 150, against a 142 par. Hagen and Ross each had 138. The D. C. C. gave a purse of \$750 to the winner, while the loser received \$250. Yesterday's victory makes Barnes the real champion for the past season.

Barnes went around the north course in the morning with 75 strokes, two over par. At the turn the Sunset Hill player was one under par, but he lost a stroke on the 190-yard eleventh, taking four. Here, as in several previous holes, Jim blew up on the green, taking three putts.

He was one over par on the thirteenth for the same course and added the other extra stroke at the No. 17 when one of his shots struck a woman, taking six for a par five hole.

Barnes' Approach Game Deadly.

The approach game of the visitor was deadly in both rounds, but his putting at times was decidedly ragged and he kept his mind on the strokes above par for the south links.

In the second round Barnes met with trouble at the 17-yard eighth, when he used three putts on the green. On the tenth he drove into the bunker on the right, taking four on a 108-yard hole. At the fifteenth, putting better golf for the morning, while Aleck was a shade superior in the second round. The national champion was one over par going out in the morning, but playing to bad breaks coming back, using 42 strokes.

The Detroit professionals were in constant trouble in approaching, while neither was consistent with the putter. Now and then Aleck hooked his iron shots, which accounts for many of his extra strokes.

The Cards Follow:

Morning.

Luque Loses Another.

HAVANA, Oct. 27.—The Pittsburgh National League baseball team defeated Havana yesterday, 4 to 2. The batteries were Cadore and Brueger for Pittsburg and Luque and Abreu for Havana.

Miss Crowley Wins Title.

ALAMEDA, Cal., Oct. 27.—Rowena Crowley of the Young Ladies Institute of San Francisco, won the National A. A. U. championship mile swim for women today over a 110-yard course. Her time was 17:10. Olga Chapital was second in 18:30 minutes; Florence Freischausen third in 19:15 and Mildred Snow fourth in 20:05. Participants were all from the Bay cities.

SPORT SALAD BY J. C. DAVIS

The Ultimatum.

BABE RUTH turned in his ultimatum. And he said: "I will perform for Boston in the box. As far as Boston is concerned, he is a total loss. And from the game he has adjourned. Until they come across."

Unless the ransom of a King is paid to Mr. Ruth. For Boston he'll refuse to fling. And that's the honest truth. Nor will he caper in the field. And play his trusty ash. Unless his envelope should yield A goodly war of cash.

No more he'll lay against the pill With his productive stick. Unless with the golden Boston fill The Babe's capacious kick. For the dough West he'll go. Where he will try to clean Up forty million bucks or so Upon the picture screen.

Quite So.

The man on the sand box says the laborer is worthy of his hire. And he comes higher every day. Nevertheless football "tanks" perform better on a dry field.

THE POST-DISPATCH DAILY RECORD OF MARKETS AND FINANCE

STOCKS IN NEW YORK

Timely Staff.
STOCKS IN NEW YORK, Oct. 27.—The market opened with a sharp decline, but soon recovered and closed with a gain of 2 to 5 points. The market was influenced by the news of the coal strike and the gains of 2 to 5 points are recorded.

There was good buying in some of the speculative issues, as many traders still believe that a strike will be averted. The railway shares were steady on the move of business organizations at Chicago for better railroads.

While the money outlook has not been so favorable, the market has been able to maintain its position. The market has been able to maintain its position. The market has been able to maintain its position.

Reports that redemptive rates were likely to be raised in order to check speculation in stocks and bonds have apparently had little foundation and were scarcely regarded with any seriousness so long as needs of the government are met.

Firm rates for call money may be expected, but the market has been able to maintain its position. The market has been able to maintain its position.

Special Cable to the Post-Dispatch and New York Evening Post.—LONDON, Oct. 26.—The size of the new loan in America is larger than expected. It is believed, however, every penny will be required to meet various governmental commitments.

It was expected, however, that the new loan would be a success. The market has been able to maintain its position. The market has been able to maintain its position.

MORE TRUTH THAN POETRY

By James J. Montague.

AS TO THE L. W. W'S.
If Big Bill Haywood ruled the land
With Aleck Berkman's artful aid
They speedily would have things planned
So whaling wages would be paid.
And if the bosses didn't like
The mandates of these gentlemen,
All laborers would go on strike
And what would capital do then?
It couldn't do a thing, indeed,
But pay what wages Bill saw fit,
His orders it would have to heed
Or simply shut up shop and quit.

Attention to this marion old
The writer humbly begs
The golden goose, when dead and cold
Laid no more golden eggs;

If Haywood's gang could have their way
The poor, hardworking Bolshevik
Would get his fifty bucks a day
With three days off to loaf, a week.
And if employers didn't care
To come across with an advance
They'd soon be ticketed "unfair"
And be blown up, with all their plants.
"We'll show them plums," the lads would cry,
With shouts of innocent delight,
"We'll send their factories sky high
If they won't treat us workers right!"

Yet I remember somewhere in
The Bible to have read
When Samson stove the temple in
It landed on his head!

MAKE IT A SURE THING.
If the Government is wise it will
tax not poker winnings, but poker
losses.

EAST IS WEST
In the West the mask-I handit is
a movie actor. In New York he's the
real thing.

The Time-Keeper.

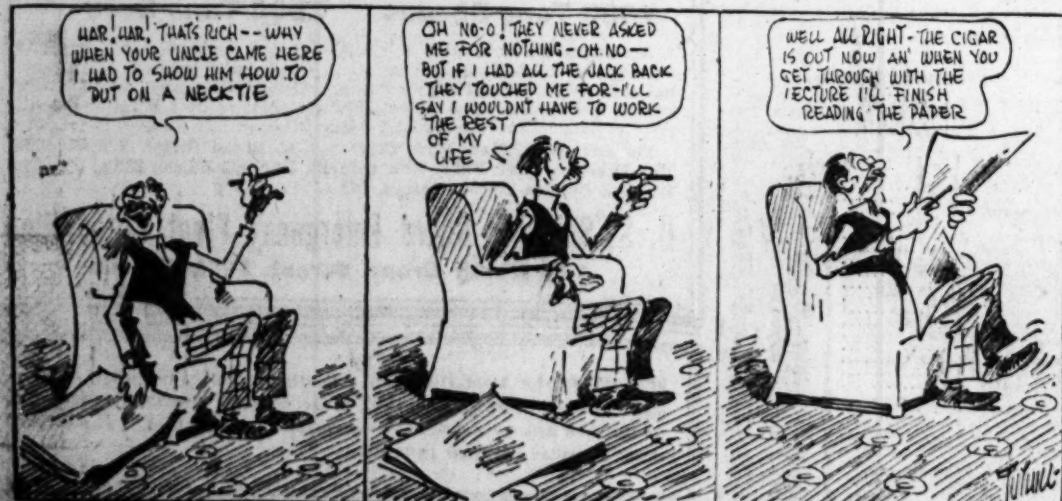

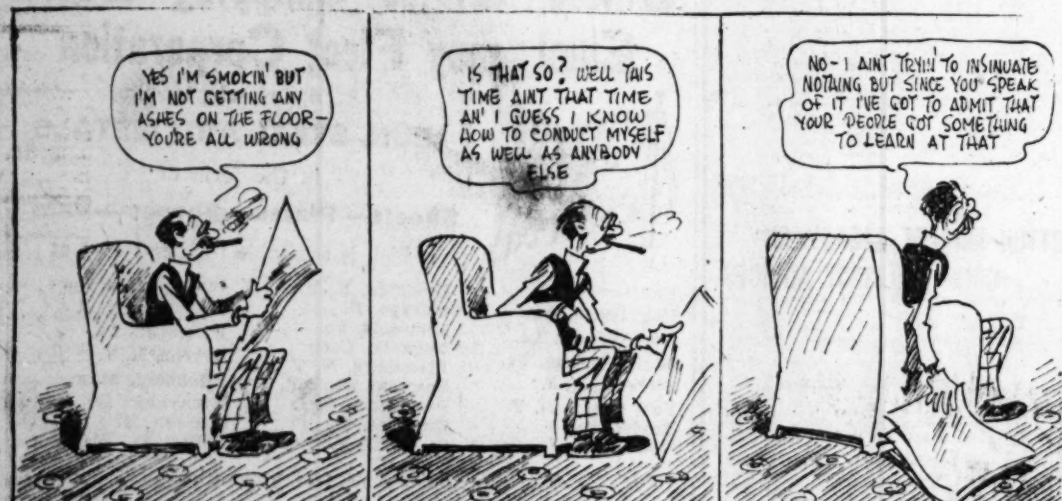

A sailor who was spending the evening of his life in the country was very proud of his watch, which for nearly 30 years had never once gone wrong.
Early one morning he roused a visitor who was staying with him, and together they set out to see the sun rise. The host kept consulting first his watch and then a calendar which gave the times of the sun's rising and setting.
There was a long wait in the pale, vague dawn. Presently, tapping his watch with his forefinger, the sailor said:
"If the sun ain't over that hill in a minute and a half, he'll be late."
Tid-Bits.

What Could Be Simpler?
"Why do you always type your letters, old top?"
"Saves brain fog, dear boy. I just type 'My Darling' and then tap away at the jolly old 'X' and—er—well, there you are!"—Passing Show, London.

Regretting at Leisure.

Mrs. Houlihan: Phwat a fool Ol was; Ol never saw yez till the day before me unchained marriage.
Houlihan: Faith, Ol wish ye hadn't seen me till the day after.—Kansas City Journal.

Guess To Whom He Is Talking.

By Tuthill

The Passing Throng.
Young Wife (in the country): This is a nice place you've brought me to. We've been here for four months and I haven't seen a new face!
Hub: No new face! Why, my dear, we've changed our help eight times.
—Boston Transcript.

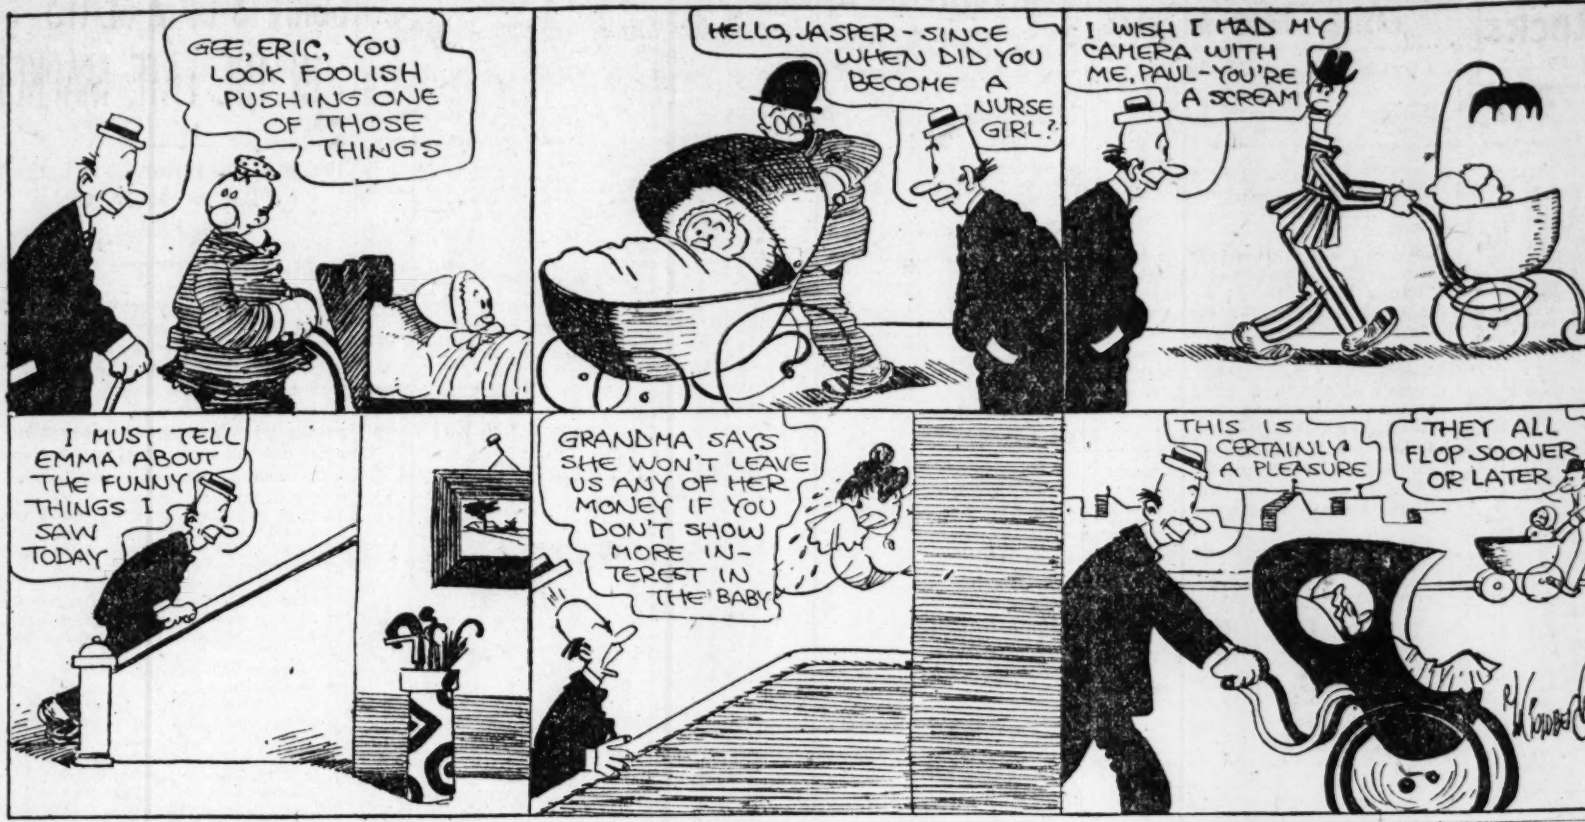

Good Beginning.
Visitor: What makes you think that William will grow up to be a great doctor?
Fond Mother: While playing doctor with his little playmates, he said: "Gentlemen, before we begin to operate, you hold the patient's hands this right-hand pocket."—Detroit and feet. I'll get the 3 cents out of it! News.

METROIZING

Their Medicine Chest for 20 Years
It is characteristic of
After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further and does more than any laxative on the market today. The thousands of letters from users have convinced me it was right, and that the user of Nature's Remedy as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.
My knowledge of medicine and the results of its use in my own family, and among my friends, before I ever offered it for sale, caused me to have great faith in Nature's Remedy from the very first.
And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to tell each and every one of my friends, old or young, who tell me of having used Nature's Remedy for constipation, that it is a remedy that has saved the lives of many a man, woman, and child, and that it is a remedy that has done something for my fellow man, my greatest satisfaction, my greatest joy, my greatest pride, is the knowledge that Nature's Remedy has saved more than one million people from the pain and suffering of constipation, and that they are now better, healthier, happier people than they were before they used it. I hope you will be one of them.

PRAISES VIRTU
SENATE EXE

WASHINGTON, Oct. 26.—The Belgian monarch, King Albert, in the House of Representatives today described as "the deed of the century" the determination of the Senate to declare war on Germany. He said that the deed was the greatest of the century, and that it was the greatest of the century because it was the first time that the United States had declared war on a European power.

The address of his majesty, which was the longest and most eloquent ever made in America, was intended as a message of sympathy to the American people, and as a tribute to the courage and heroism of the American soldiers and sailors who were fighting in the trenches of France. He said that he was proud to be a citizen of the United States, and that he was proud to be a friend of the American people.

"I salute," he said, "not only the eminent men who have made this deed possible, but also the brave soldiers and sailors who are fighting for the freedom of the world. I salute the American people, who have shown the greatest courage and heroism in the history of the world. I salute the United States, which has shown the greatest leadership in the world."

"I hope with all these relations, which are so many, which are so close, which are so intimate, that the friendship between the United States and Belgium will be a permanent one, and that the two nations will always be united in the same cause."

Speech in the House of Representatives, Oct. 26, 1919.

These hearts of Belgium have been helped to the domination of the world by the American people. I express the profound gratitude of the Belgian people to the American people for the great cause of the world. In this noble assembly, I thank the members of the United States Senate for the deed of the century.
